Thread: [Earn Bitcoin from playing an Android game](#)

**HACKED** - May 12, 2015, 1:37 pm

Well, don't expect to earn a fortune from this, but you can earn some BTC while having fun.

I have tried this and I was paid instantly.

You will need an Android device

Name of the app: Bitcoin Flapper

[Google Play link](#)

[Click here for the website](#)

You also check [this](#) game in order to earn some BTC.

Hope you enjoy! ?

BTW: Check [Post #4](#) in order to see how you can earn some money to spend on Google Play!

How much BTC did you get paid, like a few cents?

Yeah, the amount is small, but still you can earn while playing a decent game.

Also, it depends on how well you play.

Bonus tip: Download Google Opinion Rewards

<https://play.google.com/store/apps/details?id=com.google.android.apps.paidtasks>

If they ask you if you use a specific product just say yes, you'll get more questions, and there for more money.

Somebody on reddit said that if you're a girl you can get more questions, but it's not proven.

YOU CAN ONLY SPEND THE MONEY IN THE PLAY STORE

**Chester07** - May 14, 2015, 7:17 am

Guys, after a few times I've played the game... I can vouch that it is legit!

<https://puu.sh/hMZz7/ab6c553350.png>

Payout minimum is 0.00016 but it takes away 0.0001 for the transaction fee. Thanks a lot OP for sharing this! :)

Yeah I know, but since it's a nice game, instead of playing a similar one you can play this and earn some \$\$.

I had the same problem. Probably you have left space. I got the same message because of this.

Simply there should not be space between this ()

(I don't know how the fuck it is called, tell me pls xD) and the last letter of your address.

Didn't you understand?

If there is space between the cursor and the last letter then it perceives the address as false.

**Finestquad** - May 14, 2015, 1:55 pm

@above There is no space. So how can I fix this?

**HACKED** - May 14, 2015, 1:57 pm

I don't know man..The only possible mistake is typing a false address. Else I don't know what's the problem.

**Finestquad** - May 14, 2015, 1:59 pm

Can I send money to you? Then you will send the money to my address.

**HACKED** - May 14, 2015, 2:01 pm

Send the money to this address 16Cm3bJcUSG1b6CGvoSCkGFsADr3wcVaPx

But if it's around \$0.01 it's meaningless because of the fees.

**Finestquad** - May 15, 2015, 12:24 am

@above Do you have Skype? Who can I trust with money?

**Harvard** - May 15, 2015, 12:32 am
