Thread: [Coder for Runescape Bank Pin Recovery](#)

Nex+ - May 12, 2015, 6:25 pm

Looking to hire someone who can code me a runescape bank pin recovery. Looking for it to send screenshots everytime a number is clicked of the bank so you can just narrow down the numbers to see what the user has entered when he clicks his mouse. If you have other suggestions on how to do this message me. Must be done in C#. Post if you are willing to try the job or if you can do it 100%. Currently need this for 07 but would like rs3 too.

Price: You tell me

Nex+ - May 18, 2015, 7:56 pm

If anyone is still interested in this let me know

Picture Perfect - May 18, 2015, 10:02 pm

I can do this. However I'd need you to pay upfront as I need to pay my team an amount as well.

If you're okay with that. Please PM me.

Pangaia - May 19, 2015, 9:30 am

I'd give it a shot :)

PM me every information I could need, keep in mind I have never touched Runescape in my life

SpacePupper - May 19, 2015, 8:47 pm

I can write this for you in either C# or Java, your choice. Pins can be saved to a file, emailed, sent over IRC or posted to a web page. Let me know if you're interested, what exactly you need, and what price you will offer and I'll get on it.

Hey I can do this for you if you still need it.

Oh, wait aren't you a master coder?

Real talk, curious if you still need this.
