Thread: [First Day Of Summer Break!](#)

Erik. - May 13, 2015, 2:16 pm

Well, even though it's not technically summer, my last day of school was yesterday ? to celebrate I slept in until noon, and now I'm just chilling watching movies. How about you guys? When's your last day of school?

Yeah some people finished on the 8th, and some people finish in June. Enjoy your break.

Dalek - May 13, 2015, 2:21 pm

Lol I probably had my last day like a month ago. My school's on strike and so far it doesn't look like anything's happening about it. Normally my school gets out on like june 28th though so I'm really hoping that the strike holds out.

How does me having a similar name equal a multi :/ and I said in the thread I only have a dollar left, I could care less about whether or not I get +rep for giving it out. I don't ask for rep either, I deal over Skype with other members

I still got a month or so left of school. Summer break always gets boring for me after a week or 2.

Only little kids sleep in during summer... I graduate high school next week and planning on getting a second job.
