(May 6, 2017 10:45 AM)DoctorSheep Wrote: [\[CITE\]](#) This guy is one of the best high quality service out of every other services ive used on this forum. Been working with him for about a year now and hes always never disappoints. Even with hes own personal life, hes still able to get assignments done on time, especially math. I rate him a 10/10 without him i would had probably flunk some classes, best guy out here.

High Quality Service, I highly recommend him. Any questions just ask him or ask me.

(Jun 13, 2018 08:30 PM)TheLegendary Wrote: [\[CITE\]](#) He has done over 7x Android assignments/1x final project(app) and 1x final test (online exam) in the past couple weeks for me.

was very pleased, he was super fast and always got the job done even in a very short amount of time(always asked for help a day or two before the assignment was due lol)

will definitely ask for his help in the upcoming classes,

Skills needed for my work

Python, Java(also Android), and Calculus

All were done beautifully and never had less than a perfect score + a lot cheaper and efficient than Fivver.

(Jul 13, 2016 07:58 AM)CHAsE Wrote: [\[CITE\]](#) Huge fucking vouch from me!

Paid him to do around 100 Geometry questions and he scored 100% on all of them so far!

Very reasonable price, and fast work!

I have never truly been this amazed by anything on HF.. Like seriously.

I've been paying people more than what you are charging me and they get like 80's and 90's.

You're getting 100s..

Hey, buddy.

I saw your post on homework, and just had a couple questions.

First off, its a 2 page (double-sided, so 4 page) math assignment (Grade 12 level, but its an adult class, so the questions are pretty basic) on Combinations and Permutations. Its around ~54

questions total (24 questions plus A, B, C etc...).

I need it done tomorrow, by 2pm EST at the latest.

If you can make it happen, let me know a price and if we can agree, I'll get you the info ASAP.

Here's an example of what its like:

A standard deck of cards have 52 cards. How many 5 card poker hands are possible containing....

A) Any 5 cards?

B) 5 Spades?

C) 5 face cards?

and so on. I'd be paying with paypal. I know I don't have many posts/rep (mostly lurk) so I am okay with paying first.

He has done over 7x Android assignments/1x final project(app) and 1x final test (online exam) in the past couple weeks for me.

was very pleased, he was super fast and always got the job done even in a very short amount of time(always asked for help a day or two before the assignment was due lol)

will definitely ask for his help in the upcoming classes,

Skills needed for my work

Python, Java(also Android), and Calculus

All were done beautifully and never had less than a perfect score + a lot cheaper and efficient than Fivver.
