Introduction: Hi, I'm Crab. I've been on HF for a few years now and pop in every few times to browse. Seen a lot of changes happen here. I never received any award or an "emerald" donator either.

Why I deserve emerald donator: Would be great to get one as I have given back to the HF community for the longest time. I have provided guides, giveaways, services, etc for the longest time. Also, I was able to post first on this thread. That should mean something ;).

I don't have many awards compared to some, I don't really find the benefit of them worth the price. Only one I bought was OMC, rest were gifts

Unixroot™ - May 14, 2015, 10:02 pm

Introduction:

Joined HF in this month of 2010, have helped 100+ member with port forwarding and RATs, gave 200+ maverick money makers account which which costs 97/month plus gave many WSO eBooks.

Why I deserve emerald donator:

I wanted to have that award but at that time in late 2011 there was no price fixed for the awards.

I wanted that award so bad. but I had only 15\$ on my paypal.

Then I donated those 15\$ but Did not get that award.

So I did PM Omni and he said me that I'll need to pay 20\$+ in one payment

but as he also said he usually don't offer this but if I donate 13\$ more he would give me the money

but I did not have.

I think I deserves this award most because It was my broken dream from late 2011 </3

Introduction

Hello. I would like to start with the fact that I don't think I deserve the award more/less than the others as each member has contributed differently on HF.

I'm N1nj4Styl3, member since December 31st, 2013. I started my journey on HF as a lurker at first because I wanted to see how the whole system works. Once I felt ready, I started posting. My first sections were Lounge and the subforum Innuendo where I kept reading & advising accordingly.

I'm a medium coder in Visual Basic and C#, I am in the electronics engineering field in real life and I help mostly in Lounge, Innuendo, Phones (Android, iOS), Computers(Hardware, Software) and in premium sellers section.

Yet I think I have not contributed enough time on HF, but I'm definitely going to do so after summer.. because I am really busy in real life right now and I can't start big projects, tutorials, etc.

I'll leave a list of all my contributions to the HF community below.

Thanks for giving us the chance to take the Emerald Award. Appreciated.

whyso - May 15, 2015, 2:46 am

Introduction

Hi my name is whyso, and im 18 years old. going to be 19 this month. Well for a introduction lets start with why i join HF. I have been always into Computers, Graphics Designing and always want to learning new thing about it. That's the main reason that I joined HF, to get to know new things, learn more. since the day i join HF, I learned new things everyday, which grew my interest into HF and now I spend more than 12hours a day on HF. Now its been 2 years in HF, with the things that I have learn now, I have been taught that knowledge with other members, in my area of expertise, which is Rattng and Graphics designing, and also hosting contests, I have been helping other members out with setting up Rats, I have over 100+ posts in my Free RAT Help Desk and helped out over 50+ members. besides RAT Help Desk, often then I spend most of my time in GFX section, helping out members who are in need of GFX, Helping members with free gfx requests in Free gfx request section, you can see that in my post count and rep. Within this 2 years I have hosted many contests you can see those contests in Contribution tab. this is all possible because of HF.

What have you contributed so far on HF?

Recently, Most of the time i spend on GFX Free section.

RAT Help Desk:

[WhySo's RAT Help Desk | Full Setup | Test Install | Mentoring | Vouched.](#)

Graphics:

[WhySo GFx - Your name on a Hot Girls body!!!! | L33T & UB3R](#)

PS: This is the only thread i have on GFX but i have done many Free GFX in Free GFX request section, you can see that in my post count and Rep.

Free Giveaways:

[Paypal Giveaway | \\$0.10 to Ub3r | \\$0.05 to L33t](#)

[FREE Twitch Channel Views | 10k for L33T/3P1C | 20k for UB3R](#)

Why I deserve emerald donator:

All above concludes why I deserve this emerald donator, hence I don't have the money to buy a emerald donator. most of my work done for free, never intend to make any money out of it and it would always be a pleasure to help other's out for free.

Thank you for reading my Application. Thank you for hosting this OP and Goodluck everyone ?

HACKED - May 15, 2015, 2:58 am

Introduction: Hello, n?w? here. I am a member for around 2 years. I was almost always active except for some periods of time. I joined in order to improve on hacking although I ended up being interested not only in this area.

Why I deserve emerald donator(or the gift award): In my opinion I deserve this because I generally help members around the forum. Except for doing giveaway and some contests I do favors for others such as giving them accounts helping them with money transactions sign ups, reviews, feedback etc. Also I don't have any awards except for the one all Ub3rs have :(.

Links to threads I have given back to HF in some way:

<https://hackforums.net/showthread.php?tid=4698387> (Money giveaway for upgraded members)

<https://hackforums.net/showthread.php?tid=4767090> (Money giveaway for non-upgraded members only)

<https://hackforums.net/showthread.php?tid=4818105> (Android games/apps from which you can earn BTC)

And also some other threads clicking threads, giving games which give you BTC while playing games ebooks etc.

P.S: My best threads giving a method for 6 Steam keys and other games with around 200+ replies got closed like my best contest too. :(

You can still check my rep for evidence of these threads.

Thanks for hosting! Really like your contests.

Introduction: Hello! I just joined this forum recently and I'm from TriBot forums, some of my friends told me that HackForums have a runescape section that is pretty active, and that's why I decided to join HF. I'm 17 year old and I only love gaming that is my hobby.

Why do I deserve an L33T Upgrade?: I want L33T. I don't think I deserve it, but I would say I do a little bit since I got scammed for an L33T Upgrade (\$18.05) here:

<https://hackforums.net/showthread.php?tid=4822466>

I'm also pretty active, I just recently joined, I'm from TriBot forums and someone told me to join this because there is a runescape section that is pretty active. I made about 54-57 post yesterday, that is HQ. I also made some posts that members appreciated, because I helped them. I don't see myself HQ yet, but it would be nice to replace an L33T upgrade with my money I got scammed for, I just wanted to be L33T, but it seems like not every ub3r is trusted here on HF. Thank you for this contest, I'm really thankful for it even if there is another one that will win this. I wish everyone good luck. ?

Sunlight - May 16, 2015, 5:15 am

Introduction:

Hey there, my name is Kayla. I won't ramble on with much about me, but I'm a generally nice person who is laid back and chilled out.

Why I deserve emerald donator/gift award:

I don't deserve it more than anyone else. I try to offer my HQ advice to people in innuendo and I try to just be a generally laid back member of the community. I don't have the money or skills to give back to the community how I'd like, so the best I can do is give advice. Having another award could potentially make me look a little bit more HQ and trusted (probably not) but it'd just be cool to look fancy.

Cyaddd - May 16, 2015, 3:19 pm

Introduction:

I'm Cyaddd, a guy who likes to socialize online.

Why I deserve emerald donator/gift award: I'm a cutie? :(

Introduction:

Well I first joined HackForums looking for some nice graphics and not thinking I was even going to comeback after, but I instantly fell in love with one of the nicest online communities I have ever came across. From the get go the user base of the site was very welcoming, and showed just diversity that it was nearly impossible to leave once I entered. HF has every aspect needed to create a good forum, including very sufficient staff, helpful mentors, and very nice members. HF has had such a big impact in my life as my every day intent on HF is to further educate myself in many aspects of the internet realm that I never had before, such as hacking, RAT's, money making, black hat activities and electronics. HackForums is such a great tight knit community, that is very open to newcomers such as I was, but I have developed greatly under the wings of many open armed users. Omniscient has done a wonderful job in bringing diversity to this forum, with people ranging in different expertise from topics from Anime all the way to Blackhat hacking. Some other very unique ideas he has had that made Hackforums a very memorable site to me were his advanced ideas such as usergroups, awards, and very good layout of subforums. I feel that the awards concept is also a very cool idea, as I'm sure it makes members feel just as proud as being in usergroups, and although it is just pixels, it really gives people a positive mentality when they do get an award. Also the layout and organization of the subforums on this site are absolutely impecable. There is such a fresh and clean layout, and it is so easy to navigate through the site, that even the newest of users should surely be able to find a section on the site that interests them and leads them to staying here. I'm sure with time all this site will do is keep growing and with Omni's amazing ideas will never stop. He has also done an great job at picking some very trustworthy staff, who even though I have never met them, I would surely trust each and ever staff member with everything I have. This well constructed team surely keeps everything in line, and is one of the biggest reasons that HackForums is such as pleasant experience for nearly every user on the site. I would just like to say HF has really made a detrimental impact on my life, and I would like to be apart of this family for as long as I possibly can, and my stay will last all the way till the end. One more section I would like to speak about which seems to bring a lot of really unique people together into one group is the Innuendo section. As many "12 inchers", "incest lovers", and other types of trolls who live in the deepest abyss of the Innuendo section, every once in a while there is someone who truly does need help, and it comes upon me a very good feeling when the users of the site show a bond and give eachother compassionate words and are able to express eachothers problems. It's actually pretty touching sometimes, especially when someone is in dire need whether it be relationship, crush, or just any type of personal problem, it always seems like there are multiple different dedicated members there to help out anyone in need. That's why as many trolls there are who lurk there, the Innuendo section of Hackforums would be a "must see" recommendation I would give to any new member to at least check out and see for them selves. The Innuendo and freebes/giveaways section will always be one of my favourite

Things that i have done for the community.

Why do I want the emerald award??

I've been a member on the forum for quite a lot of time now, and I feel that my awards are quite empty.

I feel that when I get the award I look sexier since I have a blue & green emerald. Having the emerald award has been one of my tasks since joining hf and knowing about all of the awards. I don't just want to get an award so that I can show it off. I want it so it can motivate other people into buying it too! When I post in threads, I try to be as HQ as possible, I am kind to everyone. I'm not that guy that just throws -3's to people.

I'd just like to say good luck to everyone! Thank you for hosting this amazing contest.

Introduction:

My nickname is hopsin and I am 22 years old.

Why I deserve emerald donator award:

I have been contributing since 2010. In many sections like cryptography, beginners section, marketplace (given great advices) and many more!!! I have been helping and supporting members

since 2010. I have earned money and donated to HF members, how? I upgraded them! I have upgraded around 15+ people, I have done many e currency exchange with 100% success rate, I have 0 scam reports but I got scammed twice and lost more than \$40... Sadly. At the moment, You can even ask around about me, many people will vouch for me for many things. However, I haven't asked anyone to vouch for me in this current thread so you, as "OP" would see yourself the person which should win because I trust your judgement. Once, I have been repfucked (Losing around 500 reputation) but I continued, from start. I continued and as you wish, you may view the quality of my posts, threads, everything. I have updated this post, hopefully for nice output. I have donated \$0 to HF but donated and "helped" in many ways, Including and not limited to : everyone! Mostly, new members which came to forum and many people don't help them but make fun of them. Everyone have to make an start! I have received many thanks in many kind of forms which I am proud of it. I am also updating since 2011 an "free" crypter, free updates, \$0 charge for free only for HF members. I have joined groups "coders" back in the day but nothing fancy. The amount of help I gave is very high. I really hope to win the emerald donator award!!!! That would be very awesome, You may check my contributed threads below

Why I deserve emerald donator/gift award: I deserve it because I make people laugh all of the time.

?pth?n - May 17, 2015, 3:29 am

Introduction:

While I don't like revealing too much information, let's say I study something IT related at a university. I've joined HF more than two years ago because I was interested in the whole hacking stuff and wanted to learn something new. I'm a helpful and calm guy who just wants to enjoy his spare time, so I don't like the whole flaming/trolling/lq some people prefer. My gift award is so lonely and he just told me he would like to have a mate, so the emerald gem would make him more than happy ?

Why I deserve emerald donator/gift award:

I got a lot out of this forum and the information it provides. When I started knowing things very well, I decided to contribute to HF too.

I'm eager helping out new and old members with every hacking/computing/similar question. I've spent many hours helping out others without asking for something in return. Whenever I can, I try to provide a HQ answer that is actually helpful.

Quote:Introduction:

Hey OP, I'm iDuL. Five year Veteran of HF, still going strong. RF'd @ 1200+ rep due to a mis-understanding with Omniscient. Regardless, I've moved passed that green number to the right and have continued my HF journey without causing too much ruckus.

Quote:Why I deserve emerald donator I believe I deserve the emerald donator award because for my entire time here on HF, I have always provided any help I could, been friendly to almost everyone on here (unless you really lack some common sense~) and have never once scammed on this site. I used to use HF as a means to meet fellow Halo players and to sell Gamertags. That ship has sailed and now, I can only describe my time here on HF as chilling on a beach with my shades on. I solemnly believe I have made a great example of what an Ub3r member really is. Please OP, would you consider me?

Introduction: Hello. I'm Meerkat.

Why I deserve emerald donator/gift award: I don't have much "hacking" knowledge so I am unable to give back to the community with HQ tutorials and guides, however, I remain HQ and do help people when I can. I've delivered over 50,000 free Twitter followers and also employed 2 members of this forum, paying around \$500 a week. I never troll and always try to stay as high quality as I can.

Links to threads I have given back to HF in some way:

<https://hackforums.net/showthread.php?tid=4813343> <---- In the 2 Twitter follower giveaway threads, I have given out a total of around 50,000 Twitter followers for free.

Thank you for the contest and good luck to everyone else that entered :)

This is a contest for emerald donator or gift award. Please read threads before you post in them. Not that the thread title doesn't already say what I just said...
