I have received a vouch copy.

? Grammar 9/10: Grammar was great, I only spotted little mistakes.

? Layout 9/10: The layout was pretty good. Had to go back to re-read some things, but overall pretty good.

? Ease Of Use 9/10: This is pretty easy to do, requires a small investment and is autopilot from there.

? Content 9/10: I personally liked this method a lot. It requires little work and the payout is great

? Overall 9/10: Great method, I really like it. I vouch for Noodlebot and his Ebook

Vouch for Bitcoin Blaster. This ebook will simply teach you how to really start turning a profit from BTC with a little investment. I would recommend this method if you're looking to make some money.

I am willing to give a couple vouch copies to get things started. I'll pm you in one moment, just fixing up the signature. It's saying too big. :(

**Hinch** - May 15, 2015, 1:28 pm

I'll take one if your still offering good luck with salesales

Edit: received a vouch copy and I would like to take a moment to congratulate this user for being the only other member on HF that I have seen with a eBook that can't be saturated. (I'm the other user). This eBook is very promising and I can guarantee you will earn from this. Yes a investment is required this also required affects your outcome so the more you put in the more you wipp get. Its not an eBook promising you will earn a lot in a day but rather that you will earn in short burst. I do not intend to use this method myself as for me I would rather just gamble on prime dice that's just how I role. But this book will make you money and you can come join me on primediceprimedice. Anyway vouch for this working method

**HACKED** - May 15, 2015, 1:29 pm

Seems a nice ebook. If you think I capable of receiving hmu with the money I have to invest.

Edit: Just received a vouch copy.

It is a well written, brief ebook. It is easily understandable and I didn't notice any grammar mistakes.

It requires an investment. Investing larger amounts is recommended. Although you can even invest \$5.

This method seems different from most others on HF. It is promising and I have not seen it anywhere else.

it's auto-pilot and I didn't notice any difficult steps. Would recommend this ebook to everyone who can invest even a small amount.

Nice ebook OP, I vouch.

Received a vouch copy of Bitcoin Blaster from NoodleBot™

The content of e-book is very well written, I hardly saw any mistakes (I am not a Grammar Nazi).

The method stated is highly unsaturated and very finely explained. With some investment it will guarantee you good returns.

Its both short term as well as long term investment depending on the member who wants to invest..

Highly recommended.  
Vouch for OP

I know on your signature it says no E-Whoring, but with that, you can make so much more than the image you provided, in a day.

As, 0.01BTC is £1~.

Don't mean to be an arse or anything, just speaking my mind.

Eh, I don't know too much about e-whoring really but I'm sure it's not all too hard. However, this method is unrelated to e-whoring completely so the earnings are also going to be different. Also, since the earnings are legitimate you will not have to worry about fraudulent payments and chargebacks meaning I won't be seeing a lot of PayPal related threads coming up.

I understand, however this is a different subject. The method allows you to nearly double your input, many times.

Switching the payment system over from Paylvvy due to some complications. Please be patient!  
Problem is fixed. Autobuy links are back up and working. Edit: Fuck AIOBUY, back to Paylvvy.

**Katsuo** - May 26, 2015, 10:02 pm

Will be buying this soon, Will update you guys on how I think it is.

EDIT:

I can tell you now this E-Book will make you money. The only problem that I have with it and the reason why I will not be using it is that it will take some time for you to earn the money. Sure if you're going to invest a lot into it, it's worth it but if you're only looking to do \$20-50 I just don't see it being worth the time.

On the other hand if you don't care about the time and just want to see a return + more on your investment this will be the ebook for you!

**D4rkNet-X** - May 27, 2015, 3:01 am

if i would invest today 50 \$, how long would take to see result , and when the first money will be coming back?

cheers

Money will be flowing within the first week. I estimate 1-3 months before you start earning pure profit and your investment is paid off.

I agree; at lower amounts it's a journey. However it gets the same results just with a longer time period.

The beauty of this method is that it's a real "set it and forget it" method - takes minutes and pays out for a long time to come.
