I don't know why no one gave you feedback on this bud, I like it!

It has that nice mystery feel to it, if ya get me. Also I love the colouring, really nice tone to it!

Good word bud, keep it up!

goldenarms_ - May 15, 2015, 4:45 pm

hmmm this is shit tbh. why is everything orange and why is everything blurry

Scymo - May 15, 2015, 4:46 pm

I think it looks awesome OP, great job!

Harvard - May 15, 2015, 5:46 pm

I too think it is pretty good!

It looks very good, in terms of the concept that is. However, the implementation doesn't look very great. The colors are too monochrome, with very little or no variation(s). The girl render looks very much lightened up (even the legs), while the hand statue thingy which is so close to the lighting source doesn't even light up a tad, which kinda removes reality for me and fucks logic right in the p. Again, the girl is too much brightened up, while the whole atmosphere is dark and serious. Plus, The MixMaster logo would've been better at the bottom-right, since it's very dark there and you wouldn't have to vertically rotate it. The black thing above, I don't know what that is, I suggest you remove it because it's not fitting. Maybe play with it more, you're talented enough to make something awesome out of this :)

Amazing work by an amazing artist

KingMomo - May 16, 2015, 5:32 am

hmm , i really liked that , the CC looks nice , its like reading a story you want to find specific stuff in it ,

i like the fish's and everything they look real ,

stuff i dont like is her body and the lightening is so bright i think in real life underwater you wont be so bright like that

if it would be reduced it would look better in my view , for others it look nice now , !
good job anyway u nailed it mate 9/10

Too bad the quality of the video isn't that good, but the manipulation is pretty nice tho.

8/10, not bad

The White Hat Hacker - May 16, 2015, 7:54 am

I really like what you are aiming for in this work. I think that you could do some more work with the lighting to make it more mysterious. Very good work!?

Gogorakis - May 17, 2015, 11:59 am

Nice work but I would prefer it to be blue..

badboy3 - May 17, 2015, 4:31 pm

I like it, It tells a really good story.

?inimalist - May 18, 2015, 2:30 am

Thank you once again guys!!

Charlemagne - May 28, 2015, 5:11 pm

That was sick! I really think you have a bright future in GFX and photo manipulation.

HotSenpai - May 28, 2015, 8:33 pm

Skills are there, and I think it looks beautiful. When you are recording things like think you should always try giving people the taste of 1440 or 1080. Good job!

Sahaj - May 29, 2015, 6:57 am

This looks really beautiful man. _

I dunno if I am just too stoned or what but I was scrolling through the threads and I thought it said Lady Underwear.

?rtist - June 1, 2015, 5:17 pm

A bit too much Sepia going on. It's like you got bored blending colors and slapped on a gradient. Needs more color, but its not completely bad.

The hand has some nice textures going on but the lady seems out of place.

Work on your blending and don't take shortcuts with one color tone

I do not agree. I like the picture this way. makes it "Manipulated".

That's why he's entitled to his own opinion.

Lighting almost there. Light source too direct. Not necessarily too much "sepia", but rather too much warmth. Add a touch of coolness to it and it should look much better.
