People from US would make a greater profit. Also, you need to be very clever so that you don't get banned, don't worry about that though, OP enlists all possible precautions so that there are no loopholes in the method overall.You can earn a decent income if you are currently making no money at all.

Vouch for the ebook.

The eBook itself is clean, straight to the point, even with video to show you in case you didn't understand everything while reading. For the price of it, I would buy it again no doubt, since it's pretty cheap and that you can refund your investment in 2 or 3 days :) Last but not least, QueensWay is a nice person, always willing to help you :)

10/10 would buy again ?

Method is brilliant and something I've never seen and could possibly think of. This isn't completely whitehat however it will definitely make you profit. Not crazy amounts but as OP stated between \$3-7 a day. Also, this isn't anything to do with playing games or anything like that. Will be posting payment proof shortly. :)

Oh I'm sorry, You want to pay 5 bucks to make 3000?

You do realize you pay a onetime fee of \$9.95 to make \$3-7 each day.

In order to avoid retards like this, you should give out a vouch copy to a member instead of sitting back and missing out on sales.

Is mobile data absolutely necessary for this? Can't we just use a WIFI connection?

BI?ckhat - May 16, 2015, 8:19 am

Will be leaving a review here in the future.

urbaninvest - May 16, 2015, 10:40 am

Is this scalable? using multiple smartphones for example?

What kind of earnings can i expect from outside the US? (Germany in my case)

Edit: purchased the ebook now, will post review

Shorta - May 17, 2015, 10:00 am

An update will be released soon, with an improved tutorial how exactly to set this up. Step by step.

SuperCharged - May 17, 2015, 2:58 pm

To anyone complaining about the price, this may very well be the only realistic eBook on the forums with a realistic price. If you're making \$3-\$7 daily, that means you'll make back your \$10 in 4 days MAX, assuming you make the minimum amount

@OP GLWS man, I might buy this, idk yet ?

Hmmm, why must use mobile data instead of wifi?

Can explain more on it?

One more question, does it require a phone correct?

Thank you.
