You should get a domain name, otherwise your forum look nice.

[The spinning logo thing is loud and a bit annoying](#). Maybe it is just my personal preference.

I would get rid of the HOT badges seem a little bit flashy.

Other than that it looks good. Care to tell us a little bit about what this site is for?

I don't really like the theme of your site. Also I don't like the modding niche, but I can't criticize you about that because it's personal. Good luck on your site.

Just wondering is that a registered and licensed copy of IP.Board? If not I recommend removing it if not on offshore host and not having a legit copy is just unprofessional in general.

Just my 2 cents.

.co.uk > Only appear on Google UK search engine.
Poor logo design.

I have a request, message me on skype please - rghmteam
Thanks.

Nice site, but your avatar is skid as shit. ?

Opensys - June 4, 2015, 8:32 am

Whilst I'm here i'll give my two cents.

The logo is badly designed, and doesn't look good that it spins.
Their is not many sectors to speak within so much activity wont be their.
If you're using a nulled IPB license I advise moving to a new host offshore.
The forum badges are default and look unprofessional.
The theme is fairly broke, alot of images don't work on my browser, tested on Chrome and Mozilla.
