I rarely ask for vouch copies but I want to get into eBay so I decided to review this eBook

This method could bring you a lot and you don't even need to put much work in it.

The risk in this method is extremely low and you don't need to work much to get income.

You do need to do something in real life though, not all the process is online so this might not be for everyone.

It is worth the investment for sure and I wish I could try this (my PP is permalimited), I might try this later though with a friend's PP because the potential is huge.

This could get saturated if you sell a lot of copies though so I would suggest to stop selling this method after like 7-8 sales.

Another vouch for Mr. Amuse. He surprises me every time. Like his other Ebooks / guides he goes into a lot of detail, walking you through every step so everyone is capable of understanding and using the method. Not only that, but this really is a unique method, I'm starting the setup now and will post back with my results soon.

It's right up there with Top-Notch Spreading. 10/10 again.

IT WORKS!!!! Sold my first one

Charles Carmichael - May 17, 2015, 11:35 am

My statement about Top-Notch Spreading remains exactly true with Get cash.

There's a lot of controversy around Ebooks. That none work, they're all bad. I can say this one is different. I've been a customer of Amuse for a long time. The first thing I brought from his was AltBuddy, to put it simply it was an amazing product. The next thing I bought from him was his SteamBuddy method. It was the first Ebook I ever purchased on Hackforums and I can say it worked flawlessly. I was very lucky to receive an early review copy of this method. All of his products that I have owned made by Amuse are top quality, and this guide is no exception. Honestly, I can say I've never seen this before. It's his completely own original method. If you will leave your house to ship an item then this method will bring you in a ridiculous amount of cash for the little work you put in. I spoke to Amuse and he told me he was reluctant to sell this. But he has good reason to now because he can no longer continue the method himself.

Thanks for all the vouches guys. Sales are now officially opened. (:

If anyone has any questions don't hesitate to ask me! (:

BeltBuckle - May 18, 2015, 4:39 pm

I seen the new product on www.amusetech.net purchahsed it. will post back soon with my feedback once I make a few sales!

EDIT: Amuse has earned my vouch on Get Cash. I've just made my 11th sale. If Ebay seller restrictions weren't holding me back, I'd be making so much more. I've still got a few more feedbacks to be able to sell as many as I want. Once I get that I will be really in the cash.

My earnings so far

If you are new to ebay you can make \$35 your first day.

If you have an ebay account with a 10 item / month cap then your profits can easily be \$350.

If you have a fully unlimited eBay account then you can easily make a whole wack more. (:

You can easily make \$35 a sale. So times that by however many items you can sell on your Ebay account. They sell extremely quick.

Just got a copy of it. It's a well written e-book, in which the OP kinda holds your hand and walks you all the way through to the point of success. Each and every thing is well-described, and easy to understand.

I must say, It's a pretty unique method, has loads of potential to make some Top-Dollars. Of course you need to put some efforts into it, but that little effort + this method can fill up your pockets with bunch of cash, and in almost no time.

Highly Recommended.

I have an eBay with about 75 feedback and I think my limits are lifted. So do I need to go and buy items irl? In other words do I need an investment. And also does it require shipping on my end?

Is this drop-shipping?

No irl items. Extremely small investment and no dropshipping

No Irl items. (: The investment is nothing over \$5

Shipping is required, other wise you'll be breaking Ebay TOS meaning you run the risk of getting banned. ^_^

No drop shipping, this isn't a sketchy method scamming people. (:
