This e-book offers information on how to get started e-whoring, where to e-whore to make money, and how to manage and maximize e-whore earnings. It's quite simple and I would be surprised if anyone who purchased this e-book didn't make their money back in the same day. Switched up my approach a little and made my money back double in an hour of work, vouch for these guys ? Also their e-whore packs are the bomb (May 17, 2015 10:21 PM)SuperStomped Wrote: [\[CITE\]](#) Have received the vouch copy, I have read it and the method is not known yet, meaning is not saturated imo. I'll be using the method and providing more proof of its working. (May 16, 2015 07:22 PM)Murderz Wrote: [\[CITE\]](#) i read your vouch copy heres my review

-Nicely detailed and straight to the point

-Gives an unsaturated method tells you the basics and explains everything about it and profile creation in that method

i have tried, based on my expirences traffic there is different than kik sites, they are not as many time wasters

-Gives tips on how to manage your earnings and etc (great for beginners imo)

so far i give this a 9/10 ?

It's quite simple and I would be surprised if anyone who purchased this e-book didn't make their money back in the same day. If you're a beginner this is probably a good A to Z guide, but if like me you're a little more experienced then you'll probably just utilize the method.
