Thread: [Userbar / Logo / Icon for Group - Winner gets 100\\$](#)

eCoLoGy - May 16, 2015, 7:45 pm

Hey guys,

So I have recently bought a group on HF and named it Pirates!
Got a Userbar, Logo and Icon made and it's the one I'm using right now.

But seems like the community doesn't like it and it's even being rated as the worst userbar so I'm here opening this contest.

The group name as I said is Pirates so the userbar and all the rest needs to be related with it.
I'll present the designs you make to the community and the winner gets 100\$.

Hope to see good things guys.
Use skulls, ships, flags... Whatever related with Pirates.

Good luck all!

Juicy - May 16, 2015, 7:47 pm

Personally I like it because I am tired of seeing UB's that have nothing to do with the group.

Angel-sama? - May 16, 2015, 7:48 pm

Lol the userbar looks like a bootleg One Piece logo with a sword in it. xD
Anyways I hope you find the userbar/logo you're looking for. Good luck with the group.

Sharjah - May 16, 2015, 7:48 pm

I like that Pirate ub. Gahhh damn that's dope

I also like it but if someone comes up with a better one then I'm more than happy to change.
Of course, as I said it must keep being related with pirates.

userbar whores dont like bad userbars

mparks277 - May 17, 2015, 12:42 am

I don't do userbars, but here's my go at it. No templates or anything used, same as all my other designs. I heavily modified photos I had found and rendered myself. final wouldn't have "mparks" on it.

Santeria - May 17, 2015, 1:39 am

I personally don't like this userbar, it looks too childish in my opinion and whole group looks non-professional. Maybe that was the goal, but still, userbar could be a lot better.

The GRim - May 17, 2015, 1:39 am

I like it too since I'm a huge fan of pirates :D

spradebassen - May 17, 2015, 1:40 am

Keep this one, please, it looks unique.

+Pirate - May 17, 2015, 1:44 am

I'd love to see some kind of Gold skull facing and behind two smaller gold skulls or something, Would be really cool.

?unk - May 17, 2015, 1:48 am

I'm glad you have decided to make a change.

beslim - May 17, 2015, 1:58 am

Honestly I would not decide to change it because it's gonna cost him \$50-100 dollars to buy a design and another \$250 to make the change through omni, you guys think it's free but it's not.

he already paid \$250 to change it into this userbar, and to change it again it is only gonna cost him another \$300 dollars. paying \$500+ to satisfy a bunch of skids? (I wouldn't)

Go with what you think is nice, not what others think is :)

Ps, All the people that cry and whine about a userbar not being "cool" enough never get in any group anyway, they always whine and moan about things because thats what they do on HF.

In the end it's Ecology's choice not mine, but i'm just trying to make him realize that there are always people that are gonna whine about userbars being ugly.

the people that hate the userbar now are gonna hate the next one aswell, pure and simple because that's just what they do.

Not worth spending another \$300 dollars on top of the \$250 he already paid.

Ombra - May 17, 2015, 3:17 am
@eCoLoGy

I find the userbar innovative... never seen something similar with all past groups.
Just don't care about what other people say, remember that somebody will always criticize you and your choices because he's unable to do anything else than complain... There are humans and humans.

Spoiler ([Click to View](#))

However if you're convinced about paying again, who am I to say you not to do it?

I just would like to see a different userbar in case I decide to change.

In this case eCoLoGy chose to listen to all the haters, which isn't worth doing, because they should like the group for what it's about and not the userbar.

A userbar really matters. No member would wanna have some ugly design under their name. Ecology is doing the right thing imho. The current userbar may be nice, but other groups have way better designs. Besides, ecology is the group owner and which owner likes people hating on what is his? No one but most of them just ignore, not realising the hate is real and they need to do somethin about it and I give ecology a pirate salute for choosing to do something about the hate since haters gonna hate, potatoes gonna potato isn't applicable in all scenarios..not in this one atleast.

Those were the changes I suggested him.

The Dragon of the West - May 18, 2015, 8:47 pm

After seeing all these new userbars for some reason I really don't want the current one to go... They look good in all but for some reason the current one appeals to me allot.

Anyways I hope you find the userbar/logo you're looking for. Good luck with the group.

That's what I thought too. ?

Yes, it sure does.

I made one but didn't publish it publicly, might as well now and maybe can spark some ideas for other designers.

Didn't have time to tweak it and get it better but yea.

he already paid \$250 to change it into this userbar, and to change it again it is only gonna cost him another \$300 dollars. paying \$500+ to statisfy a bunch of skids? (I wouldn't)

Go with what you think is nice, not what others think is :)

Ps, All the people that cry and whine about a userbar not being "cool" enough never get in any group anyway, they always whine and moan about things because thats what they do on HF.
I am 150% agreed with what Beslim said ?

Totally onboard with what he said. No pun intended.

Why does it cost so much to change a UB anyways?

That UB is dope though just saying.

Really like this one.

Also I've opened a contest in a website for some designers also and one of them come up with a cool design for the logo:

Maybe you guys can get some ideas for the userbar using this logo.

Santeria - May 19, 2015, 1:43 am

This is my submission, unfortunately I don't think many people will see that it's a ship.

Looked better when it was larger in size.

By far the best.

I do agree with Beslim on the amount you have to pay to change a userbar, but if you got the money and wanna do....

WHY NOT!

M?estro - May 19, 2015, 5:22 am

Here's something simplistic that I came up with, the backboard can easily be changed.

Doesnt work like that, you cant just scale things down and add them to userbars. Firsly, needs to be original work.. not copy pasted, secondly if you resized it that small it would just look like a blob.
