Livewire - June 15, 2010, 4:01 am

[Java Drive-by Tutorial]

NOTE: Fileave no longer works, find your own hosting site and stop PMing me.

[What you will need]

? <http://www.mediafire.com/?ekojo5wjzz4> [Java Applet]

? Your infected file.

? Fileave Account.

(<http://www.fileave.com/signup.aspx>)

[Uploading the files/Editing]

The files that I provided in the .zip are:

[img]<http://img717.imageshack.us/img717/1657/filesneeded.png>[/img]

These files above need to be uploaded to www.fileave.com, so here is what you need to go do now.

Log in to your account at www.fileave.com, and press the 'Upload' button located here:

[img]<http://img341.imageshack.us/img341/1055/whattopress.png>[/img]

[*] Upload all the files within the Java folder.

Under 'Files' it should now look something like this:

[img]<http://img191.imageshack.us/img191/2921/replacement1.png>[/img]

[Attaching your infected file]

Upload your infected file to www.fileave.com.

Note: If it is not crypted, get it crypted.

Recommended Crypter: <https://hackforums.net/showthread.php?tid=382789&page=1>

Now that your infected file is uploaded, your list should now look something like this:

[img]<http://img375.imageshack.us/img375/8100/replacement2.png>[/img]

My infected file is outlined in red.

Notice the Direct Link located here:

[img]http://img88.imageshack.us/img88/3348/replacement3.png[/img]

Example: <http://example.fileave.com/test.exe> [Direct Link]

Copy+paste your direct link, you are going to be needing it very shortly.

Now, what you are going to need to do,

Stay in the files section of the website, but press the edit button on index2. Indicated below:

[img]http://img7.imageshack.us/img7/8397/index2s.png[/img]

Once you are in the edit menu, you need to take your Direct link that I told you to copy+paste earlier, and put it in these places:

[img]http://img22.imageshack.us/img22/2571/info1d.png[/img]

&

[img]http://img41.imageshack.us/img41/2553/info2y.png[/img]

[Final Touches]

The Link that is used for infecting is the link for index.

[img]http://img197.imageshack.us/img197/1091/indexsz.png[/img]

Now that you have successfully set up a Java drive-by, you are going to need to do some things to make it more believable.

Go to 'www.dot.tk'

And fill in as such:

[img]http://img256.imageshack.us/img256/4458/dotk2.png[/img]

From there, you are going to shorten the link from:

'http://img256.imageshack.us/img256/4458/dotk2.png'

To something like

'http://www.imagehosting.tk'

Making it more believable and what not(:

Enjoy!

-- Warning --

Java Drive-by's are becoming more noticable by AV's nowadays.

Your welcome, glad you enjoyed it.

joes925 - June 15, 2010, 4:14 am

The client.jar is detected.
How to make it FUD?

Livewire - June 15, 2010, 4:15 am

(Jun 15, 2010 04:14 AM)joes925 Wrote: [\[CITE\]](#) The client.jar is detected.
How to make it FUD?
I don't believe it is possible to FUD the .jar file.

Has to be used as is, until someone finds a different method for Java drive-bys.

harrypage - June 15, 2010, 4:18 am

thanks, very similar to another guide i have seen here. almost exactly the same pics, i guess this
doesn't make it FUD?

Livewire - June 15, 2010, 4:22 am

(Jun 15, 2010 04:18 AM)harrypage Wrote: [\[CITE\]](#) thanks, very similar to another guide i have seen

:p I took all these screenshots myself.

No it is not FUD.

Arron XR - June 15, 2010, 4:26 am

there are loads of TuTs for this

harrypage - June 15, 2010, 4:27 am

Is it possible for a drive by to be FUD?

Livewire - June 15, 2010, 4:45 am

(Jun 15, 2010 04:26 AM)Arron XR Wrote: [\[CITE\]](#) there are loads of TuTs for this

Just got bored, wanted to do something. I have a bunch of other tuts anyways(:

iConixx - June 15, 2010, 4:58 am

i thought these only work now on people with windows xp??

Livewire - June 15, 2010, 5:02 am

(Jun 15, 2010 04:58 AM)iConixx Wrote: [\[CITE\]](#) i thought these only work now on people with windows xp??

I don't believe so, don't quote me though as I'm not entirely sure, but i believe I have infected people running vista/w7 via Java drive-by.

SryIPwnedU - June 15, 2010, 5:55 am

As have I.

I just think this drive-by method has seen its final days.

Livewire - June 15, 2010, 5:57 am

(Jun 15, 2010 05:55 AM)SryIPwnedU Wrote: [\[CITE\]](#) As have I.

I just think this drive-by method has seen its final days.

It's not at it's final days yet. I have another Java drive-by that's a little less infected than this one. It's 7/17, (or something like that :p) I don't plan on using java drive-by's much anymore though until a new FUD way is released ;D I'll stick to torrent spreading.

WoOkieE - July 20, 2010, 4:29 am

i dunno , im getting JAVA Error once i try infecting myself

i've disable Firewall / AV

rokanze - July 21, 2010, 2:34 pm

Sorry to say, but there are to much tutorials for drive-by and i would use this one!

SoulZeh - December 2, 2010, 11:27 am

im sorry for begin kinda a retard but if some1 downloads it wht do i do then how do i kno some1 is downloadin it and opend it i kno it a bad Question but wht i click ??

pm me

Lolliepop - December 2, 2010, 12:10 pm

winconfig.vbs error, could you help me OP? PM me please!

eastanbool - December 4, 2010, 10:02 am

damn thank you this is the BEST java drive by tutorial i dont get the other tutorials but this explained it perfect

Smoov3 - December 4, 2010, 10:18 am

It isn't the .jar file.

Anti Virus has detected the .vbs file that downloads and opens your exe file.

Blackpear~A.k.A~Blue - January 15, 2011, 10:16 pm

The only problem with your tuto it's because you are using always the same index an applet so is'nt

stay FUD really long :/

NICOTINE. - January 18, 2011, 3:13 am

www.-fileave.-com not working now what i can do

#SYSTEM F?IL?RE™ - January 18, 2011, 3:19 am

Achmed1 - January 19, 2011, 6:49 am

Thank you works great for me !

cleanc - January 20, 2011, 1:10 pm

How do i make it work properly? Only when they load java and let it install it works. Isn't this suppose to be easier? You press and get the virus, or am i wrong?

kingbrown - January 20, 2011, 4:09 pm

Im really sorry, but... im new to this.

What and where you get infected file?
you make it?

your test.exe

antXL - January 24, 2011, 12:25 pm

thanks!!! nice tutorial!!!

love2winsum - January 30, 2011, 3:57 am

thanks keep up the good work

the wOw - March 25, 2011, 12:55 pm

Works for me too, thanks for sharing :).

jpballinger - March 27, 2011, 2:36 pm

Hey guys, I've successfully put my site up.

I created my Infected File (RAT) with Pro-Rat v1.9

And then i followed this guide.

So when they press accept when the Java-Applet comes up, what happens? I know they are "infected" but how do I then control it?

Thanks, much Obliged.

-Wrote

Lightangel - March 27, 2011, 3:31 pm

Very nice and detailed tutorial. I've already knew it but wow, you tried.

EVAN4FUN - April 18, 2011, 11:42 pm

Very good explain! i ll try. thanks

sentryguns - April 23, 2011, 2:30 pm

Why does it say I dont have permission to open index 2?

123loaded - April 26, 2011, 10:16 pm

Awesome tutorial man! Thanks for the time and effort, I love lots of pics, caters to the Stupid in me haha, thx!

i Hackz i - April 27, 2011, 4:33 pm

Great tutorial, helped me setup mine in 10minutes. Thanks!

FiftyCentAds - May 14, 2011, 9:57 pm

I have windows 7 on my main computer when I go to test the drive by on my windows xp on the other computer it just has a line and the pics but no drive by does the java driveby only work on 64 systems?
thanks

Pr0x! - May 15, 2011, 4:16 am

Hello nice tutorial everything is ok but.. :D can i get client.jar compiled .. sorry for newbie question but i dont know how to do it.. :S

Winterborne - May 15, 2011, 11:37 am

Thanks for this. Excellent tutorial.

yoibot - May 15, 2011, 2:41 pm

Where can i find a fud drive-by?

Shaandog - June 5, 2011, 1:56 pm

Very nice tutorial dude....Well Explained ...Hats Off 2 u...
But Now fileave.com is expired....Since 05-08-2011 Now what to Do????

Can u Plz Make a New Tutorial On Java Drive-by....2011
with New Direct Link Download Site ???

We all will b very thank full to U...Plzzz Dude..

?Ñâzg?! - June 5, 2011, 5:55 pm

The one and only java-drive by which worked for me Thanks ?

Livewire - June 5, 2011, 6:13 pm

It's an old tutorial. I'm glad you still find it useful. I would update, but I don't really do much blackatting now-a-days.

DELIJA - June 5, 2011, 8:08 pm

Tnx dude... excellent tutorial?

GodIsNoWHere - June 5, 2011, 10:30 pm

its a shame that java drive by work less and less every day, it was fun :D

GreyUser - June 5, 2011, 10:41 pm

Great tutorial, I might try it some time in the weekend

kakadas - June 6, 2011, 1:14 am

Thanks For Your Nice TUT...! :)

PoS3!DoN - June 17, 2011, 2:09 am

good...work..detailed guide....nice

FamousVillian - June 19, 2011, 2:06 am

thanks dude :)

looked for something like this :)

Smalle - June 19, 2011, 4:43 pm

Does anyone know what i do when ive done this to someone? please pm me

Burnzy - June 19, 2011, 4:51 pm

a bit old tut, but still works right?

[**Delta**] - June 20, 2011, 6:33 am

nice TUT ..

THE HEADMASTER

Suits - June 21, 2011, 12:55 am

Works like a charm :) Very nice tutorial.

JEZgaming - July 29, 2011, 7:46 pm

what a great tutorial and only 6 page reply

Burn™ - July 29, 2011, 8:31 pm

wow thanks gonna try it :P

AMAVI - July 29, 2011, 11:50 pm

MM once someone opens the HTML thingy what will it show i think i'm having a problem, it says this account is not valid when i click the link to test

Livewire - July 29, 2011, 11:59 pm

Kaspersky PURE

??

read the post....

it says java drives are very detectable by av's these days

I33t10n9 - December 29, 2011, 5:40 pm

nice thread btw, i think JDB died, it doesn't work anymore

Foggy - January 9, 2012, 10:59 am

I am trying on SPAM, guys, should work. ?

Truth Hurts - January 14, 2012, 7:40 pm

Guys, just use SPAM , works like a charm, I just tried it.

Upload everything there.

pfarrer - January 20, 2012, 5:08 am

very nice!! Im learning more and more every minute Im here. :-)

Open Source - January 20, 2012, 5:28 am

very similar to another guide i have seen here. almost exactly the same pics,

i guess this doesn't make it FUD? any certain ways??

Anon62095 - January 20, 2012, 6:12 am

This was a great TUT and I understood how to do it, but what exactly will this do and how do I apply this to a site?

fillobotto - January 20, 2012, 6:48 am

Ripw4y and Fileave <3

Rest in peace.

eder97 - January 20, 2012, 9:14 am

very cool tutorial but i have questions...

- 1.Doest this download my server and wwhen yes wherer does it install the server
- 2.if i use startup on my server does it install startup on the victims pc???

very cool tutorial but i have questions...

- 1.Doest this download my server and wwhen yes wherer does it install the server
- 2.if i use startup on my server does it install startup on the victims pc???

Mediodude - January 21, 2012, 7:23 am

am i the only one that always get deleted for SPAM.com? It just deletes me after like 1 hour... What can i do about it?

Rubberduckclan - January 21, 2012, 7:23 pm

I have been looking for a good file hosting site for like 2 hours:/... i found so many but none u can "edit" the file.

jgkilian777 - January 21, 2012, 8:20 pm

i get a windows script error when my friend runs it

krishnav891 - April 25, 2012, 5:29 am

dear tutorial maker fileave site is no more so can u suggest any other site

Livewire - April 25, 2012, 10:31 pm

(Apr 25, 2012 05:29 AM)krishnav891 Wrote: [\[CITE\]](#) dear tutorial maker fileave site is no more so can u suggest any other site

There's a reason I wrote this at the top of the tutorial.

Quote:NOTE: Fileave no longer works, find your own hosting site and stop PMing me.

I don't offer any more support for this tutorial. This is back when I did anything black-hat related. I don't do much of that now-a-days.

Blacktouch - April 29, 2012, 1:46 pm

I have a Windows Script Host error...

It says the error is in the file winconfig.vbs

The error: The URL uses unknown protocoll.

Code: 80072EE6

Soucre: WinHttp.WinHttpRequest.

Thanks 4 ur help

ultralooter - May 5, 2012, 12:22 pm

IS there any method to crypt the .jar file? its detected by my virusscanner :/

10Ident - May 5, 2012, 1:41 pm

What's the best place to spread it? My drive is fud now but I have some trouble spreading it ahah..

vb.hacker - May 13, 2012, 2:48 pm

dont download this it is an virus Infection Details

Thanks 4 ur help
I have near the same issue. The fuck 35 chars'

thaheist - May 27, 2012, 4:20 am

Thanks for the tutorial brah.
Nice hackz

Superior2you1 - July 29, 2012, 10:35 pm

It's fucked up bro. I'm not quite sure what's up with it?

Austerity - July 30, 2012, 12:06 am

Very nice tutorial bro, I will be sure to use it when i want my java driveby up :) Thanks man !

keylogg - September 14, 2012, 11:32 am

nice guide but you should put up a video guide it would be simpliar

and is that java applet fud?
and can u fud it with normal crypter

1551 - September 14, 2012, 1:53 pm

thanks ! this is a interesting tutorial...

Crazy Ralph - September 16, 2012, 3:12 pm

Thank for writing this tut. Yeah, some of it may be outdated but that is what happens. I appreciate u taking the time 2 write this...

Xizzis - October 21, 2012, 8:36 am

Thanks for the tut, it's very nice and friendly. I really hope this works

samrokzz - October 21, 2012, 9:11 am

Nice tutorial .
Well explained .
Thanks for the share .

d12tupac - October 21, 2012, 11:07 am

good explanation i need a FUD JDB and thaanks a lot

joosemoop - November 6, 2012, 1:39 pm

ty it worked now i got so many bots tysm

caca22 - November 6, 2012, 4:29 pm

I get an error when i run the applet.

I don't get what i'm doing wrong. :/

caz\$per la flame - November 24, 2012, 9:19 am

This is awesome, thank you so much for sharing!

7Slevin77 - November 24, 2012, 9:42 am

Awesome, thanks for the tutorial, very educational.

goodman20 - January 2, 2013, 3:55 am

hi

sorry to post that now, but i m doing some exeperience with Java drive-by and i get always the same error with firefox15.0.1 and with internet explorer 9.08

Windows cannot access the specified device, path, or file. You may not have the appropriate permissions to access the item.

i sure sur that i put correctly my server

it s posible because that it patcherd now?

thank yu

xTeamMGPx - January 2, 2013, 7:29 pm

It is patched. It says it is an Illegal action. Sorry :(

michelle44 - January 15, 2013, 12:22 pm

Thanks for the tutorial, it's very interesting...

Apostle - January 28, 2013, 2:15 am

Good tutorial, will help many out there. :Blackhat:

cooletgr - January 28, 2013, 2:34 am

Thanks a lot for making this awesome tutorial

booby - April 11, 2013, 3:22 am

I can't seem to find a alternative for fileave. Anyone?

Machos - April 13, 2013, 8:22 am

THIS GUY IS A BAAWWSS!! thnx so much

Deluxe13 - August 8, 2013, 3:21 am

Thanks for the tutorial i really need a JDB =)

liamap - August 8, 2013, 8:23 am

thanks mate ! it'll help for those who have a website and they want to take advantage of it.

dalton1337 - August 10, 2013, 6:05 am

cheers! how can i use an .jar injection instead of an exe file?

P???ce - August 18, 2013, 1:51 am

Hi, this was so cute, I'm an advanced web developer so I need not to follow all instructions still I've rechecked & cannot figure out where I'm going wrong, everything is perfect but I get this error when it's redirected to index2 page.

Can you help me please? Can we change that winconfig.vbs file to any other to make it work?

Spoiler ([Click to View](#))

[img]http://www.nottoforget.tk/Prince.PNG[/img]

This type of JDB is patched. the only ones that work are payed for ones like foxyjava from what i know of.

Antionist - August 19, 2013, 4:36 am

very well and easy tutorial! thanks mate

haxi - October 17, 2013, 2:12 am

Hey !

thanks for this drive by !

not working on latest version but it's great :)

Dokkii - October 27, 2013, 6:55 am

Damn i needed really a Java Drive By but the site isnt up where you gotta sign up for.

Midgard - October 27, 2013, 8:12 am

its a shame that java drive by work less and less every day, it was fun :D

Aerod - November 19, 2013, 1:25 pm

thank you was searching something like that , it helps me out ;)

abdjoseph - November 19, 2013, 4:52 pm

Great tutorial.. Will definitely come handy.. Thanks

HellaCrow - November 24, 2013, 12:29 am

I looked around the hack forums for a different site other than fileave and I couldnt find any other to upload to. Where would I go

High On Quack - November 24, 2013, 1:40 pm

When I visit the website and accept the java application, an error appears saying: 'Windows cannot find "C:\USERS\JOHN\AppData\Local\Temp\winconfig.vbs'

What should I do?

keylogg - December 23, 2013, 9:56 am

caca22 i got the exactly same error, but then i tried again it worked somehow

warlock994007 - December 24, 2013, 8:05 am

Nice explained tutorial bro, but it was blocked by my AV. Kaspersky Pure.2013, what can I do to make it untracable..?

Think Faster To Get Higher

Allanitis - January 4, 2014, 2:50 am

(Dec 24, 2013 09:05 AM)warlock994007 Wrote: ([CITE](#)) Nice explained tutorial bro, but it was blocked by my AV. Kaspersky Pure.2013, what can I do to make it untracable..?

Think Faster To Get Higher

Use a crypter to make the files and your server undetectable by any AV software. Lots around HF; PM if you want me to point some out.

ferraiuolo5 - January 4, 2014, 8:24 am

Thanks for the tut I've been wanting to try this for awhile but I can. :)

hoag7474 - January 4, 2014, 9:59 pm

I appreciate the information. Very helpful

c3ll7n - January 6, 2014, 4:34 pm

Somebody speak with me the silent its patched? is this true..

jimmyleet - January 7, 2014, 6:01 am

Does anyone know of a good crypter happy to pay a price for a good one that can do .jar to

DarkArrowX - February 21, 2014, 11:33 pm

Thanks for the tutorial !! still need a good java drive

Pilinho - February 27, 2014, 1:57 pm

Does these files in this thread still work?

brazillinker - March 7, 2014, 8:39 pm

does this still work? I have been reading mixed answers.... im sure it isnt as affective as it once was, but is it still worth a shot?

MrKamarJ - March 8, 2014, 8:02 am

One day i'll be successful in completing a Java Drive by...One day....

Louisn8 - March 13, 2014, 2:54 pm

says virus detected, anyway you can make it FUD the jdb?

thePolarBear - May 19, 2014, 4:06 pm

(Mar 8, 2014 09:02 AM)ElloDer Services Wrote: [\[CITE\]](#) One day i'll be successful in completing a Java Drive by...One day....

HAHA, I was thinking the same thing. I tired like 3 times and it have not worked yet. :(

Fliiix - May 20, 2014, 2:15 am

JDB wont work on the latest version of java.

xFu5i0n - May 21, 2014, 5:55 pm

Nice guide thanks a lot dude im going to try it

xDave - July 14, 2014, 12:54 pm

Does this still work with a 100% FUD rat?

usernameeee - July 14, 2014, 2:08 pm

Does this still work? Thanks for sharing!

SIM-2339042 - September 1, 2014, 3:38 pm

This used to work. But dont know if it still works.
