i wouldn't even recommend any changes, this is really well done

**?onday** - May 19, 2015, 7:40 am

Looks pretty good, although I would rearrange the order of the images & words.

It just doesn't flow as well, but other than that it looks sick!

Nice job man.

Thank you! I think that I might make a thread design next time.

Thanks!

by rearrange I assume you mean the preview image and not the wallpaper. If so, yea I myself don't like how I made the preview image, I'll change it next time.

EDIT: 200 post !! :D

**Kung Fu Kenny** - May 19, 2015, 8:01 pm

You used flows graphic pack for the space objects, try to make some as you progress and learn your own techniques etc. looks nice though

**rob\*** - May 19, 2015, 8:04 pm

Really well done, dunno if where you say 'mine' is a spelling/grammatical error but it should be 'my' if so. Other than that it's beautiful!

**Herbo** - May 19, 2015, 8:05 pm

Can you send me the desktop background?

I would love to use it!

**?Stark** - May 19, 2015, 8:09 pm

Beautiful! I wouldn't fix a thing.

It kinda looks blurry but I am sure that is just quality and compression issues via HF.

Yay thank you!! :D <3

I respond to every reply, maybe I need to stop doing that because my post count goes up, and I think that it's cheating. So I only reply to someone who has a question or a remark.

By the way, I just had my math exams, I hope that I didn't fail. Wish me luck!

I agree with you guys, it looks a bit empty. Now that I think about it I just could make our solar system. Well maybe Part 3 would look better :P

**'Ben** - May 21, 2015, 2:47 pm

Huhm good question, 3 hours I think? Problem is that when I make something in photoshop I make it and than forget it for a couple of days and than continue. That's also the reason why I can't make speedart video (But I'll try next time).

**Charlemagne** - May 21, 2015, 5:08 pm

Looks nice, good job. It is a bit empty though.
