xVulnerable was always a fucker, he's annoying as fuck man, I don't recommend anybody to deal with him

?Cyber - May 19, 2015, 1:10 pm

Well i'd get fairly aggravated too if someone questioned every single thing, I mean you're purchasing a service not a tutor. Should at least learn about what he's going to be needing you to do before you purchase it.

cmind - May 19, 2015, 1:13 pm

Crimson dude seriously?he doesnt answer me just after i send him money... there is nothing really that i need to learn he just simply scam people

Narrate - May 19, 2015, 1:17 pm

1. This is in the wrong section, this needs to be in [Deal Disputes](#).

2. All you've done is posted a log, you need to prove that was him by screenshots of his skype username and the conversation if you want anyone to treat you realistically.

xVulnerable in my experience has been very reliable and I do not think he would scam you. I suggest you wait for him to be free.

Mr. Money™ - May 19, 2015, 3:27 pm

First of all wrong section second of all i have been talking to xVulnerable to and he seems trustfully i would wait a bit and i am sure he will response to you. since scamming someone for \$25 with his fame/reputation on the forums would be a dumb thing to do!

Business - May 19, 2015, 4:13 pm

Yeah, xVulnerable must be a scammer. He has no record of scamming and has a good reputation count... but he didn't answer right away, so he MUST BE A SCAMMER.

Chill, he is a good guy and he will keep his end of the bargain. Patience is a virtue.
