This is not counting the other 20 other crackers being sold by members . A year back, only one or two were being sold and they basically have features that can crack accounts from multiple websites, not just specifically one.

I didn't mention any names because I didn't want this to happen. You want to look pathetic, this is what you get.

Also I removed you from skype and you know that as well. You are just too butthurt to take it to HF. I usually don't say anything about the dramas offsite since Idgf about it. Btw next time when I removed you off skype, don't be a bitch and keep spamming me.

I was browsing around and I saw you thread. I thought it was nice seeing something new with a plan, and I had a chat with some of the members in your group awhile ago, so I know you can deliver.

Begins mid June, classes are usually Thursday's and Sunday's. In the event you're unable to attend YOU need to contact your mentor to do a make-up before the next lesson. Mentoring lasts for a total of 10-13 weeks, you're given homework sometimes and you'll be given a practical at the end to see if you've learned anything. If you happen to fail, we do allow make-up's but only one.

You don't need any experience to start, we'll take you fresh out the waters.
