right click the image you want
"copy image URL"
paste into img code

was that so hard?

Use this:
[img]Image direct link [/img]
That's the code!

Try this: <https://i.imgur.com/dlNSpTA.png>

It needs to be a file ending in .png, .jpeg, or .gif.

This worked! Thank you so much, but can you explain what I did wrong, and what you did right?
just for future use, xD *scrub mode engaged
