This guy has 50 accounts on HF. He is social engineering people to teach him how to hack. He then uses it against HF members. He hacked my email account thanks for a step by step help from a HF member.

Everyone here is teaching him step by step on how to hack. He is now attempting to hack my facebook account and other shit. He gave me death threats to me email.

I even heard from other HF members that he scammed 10 people on here.

He has about 50 or more accounts on here. Don't help people with under 200 posts. This guy never reaches 100. Yet, many here are quick on helping him.

?

The guy is a skid but already have more than 50 accounts on HF.

any account with post counts less than 200 is most likely his.

He been asking many skidish questions... like how to hack... how to hack facebook, emails.... is my iphone hacked? shit like that and it's constant. ??
