Thread: [Free fast webbased proxy checker](#)

NukeShield - May 20, 2015, 5:29 am

I made a fast webbased proxy checker where you can put unlimited amount of proxies. It checks them fast. Go check it out!

<http://nfuze.cf/proxychecker.php>

Lifeless? - May 20, 2015, 6:48 am

Thanks for this, since no one said anything.

NukeShield - May 20, 2015, 6:49 am

(May 20, 2015 06:48 AM)Lifeless? Wrote: [\[CITE\]](#) Thanks for this, since no one said anything. You're welcome :) People use it but nobody thanks for it expect you.

HACKED - May 21, 2015, 2:58 am

Thanks. Really usegul tool!

Syracusia - May 21, 2015, 3:00 am

It says that I need to login, how is this better than

<http://connectionincognito.com/tools/proxychecker.php> ?

NukeShield - May 21, 2015, 3:07 am

(May 21, 2015 03:00 AM)Novaly Wrote: [\[CITE\]](#) It says that I need to login, how is this better than <http://connectionincognito.com/tools/proxychecker.php> ?

I uptaded the link. And it checks faster and it can take thousands of proxies to be checked in seconds!

Billie Joe - May 21, 2015, 3:11 am

This actually does work quite well, thanks mate.

Syracusia - May 21, 2015, 3:12 am

Go away skid this thread is for my site not for your shit.

Kinda ironic that you call that guy a skid when you're the one using free shared hosting with a proxy checker that looks like shit. Maybe learn a little html5/css

Syracusia - May 21, 2015, 3:30 am

(May 21, 2015 03:29 AM)pushl %ebp Wrote: [\[CITE\]](#) Kinda ironic that you call that guy a skid when you're the one using free shared hosting with a proxy checker that looks like shit. Maybe look into Bootstrap.. Or learn a little html5/CSS.

Thank you for bringing some logic to this thread ?

Oh god...

1. This is OVH dedicated server. Not free idiot.
2. I don't need to add useless outfit. The tool works and thats how it is the best.

- Sorry, your tool doesn't work and is actually the worst.

It's not even online.

This tool is highly unreliable and low quality, I recommend

<http://connectionincognito.com/tools/proxychecker.php> which is trusted and has been here for years

?

NukeShield - May 21, 2015, 3:43 am

Your proxy's shit, and I bet you C&P it. Look at your HTML monkey, it's got fucking center tags like a child would use. Heard of Divs? Maybe a doctype and some body tags?

Syracusia - May 21, 2015, 4:01 am

He admitted to me in PM that he copy and pasted the script, the OP is a fucking idiot!

<http://connectionincognito.com/tools/proxychecker.php> is 10x better

NukeShield - May 21, 2015, 4:06 am

All go here the best tool!

<http://nfuze.cf/proxychecker.php>

Schrader - May 22, 2015, 4:54 am

I know NukeShield copied that script from internet. - He told me

NukeShield - May 22, 2015, 4:54 am

<http://connectionincognito.com/tools/proxychecker.php> is 10x better

Changing my rep on you, because you have no clue when to stop. Stfu.

Squito - May 22, 2015, 2:02 pm

1. Well it could be formatted a bit better to make it look better.
2. Hosting he is using is provided by me. The only time it's down is the time between a DDoS attack initiated (I get one almost every day) and OVH's Anti-DDoS kicks in.
3. The code itself is a mess, but seems to be working... incorrectly. I tested it with 10 working proxies and it detected only 4 as working.

NukeShield - May 22, 2015, 4:50 pm

Thank you for the feedback guys!

Drizzy?? - May 22, 2015, 4:54 pm

I can't believe how immature both of you are.

Novaly, you always advertize your shitty products on other peoples threads claiming they're the best.

And OP, you sound like a kindergartener

"My tool works WAY better than yours. Mine has 100% uptime and it his lighting fast without any chaptca shit like this guy has!"

NukeShield - May 22, 2015, 4:56 pm

he came adversiting his tool in my thread thats why i got angry.

BotMarket - May 22, 2015, 5:22 pm

@NukeShield can you explain why your account looks like you have 9 other accounts?

Spoiler ([Click to View](#))

Comedic - May 22, 2015, 7:51 pm

This works very well, thank you mate.
