Thread: [Anonymous chatting \[make own rooms\] No Logs](#)

NukeShield - May 20, 2015, 11:33 am

Hello,

I started a chatting website where you can just come and start private chats with other members. Make even own rooms! You are fully anonymous, no logs or anything!

Feel free to come!

User keeps logs - proven in chat just now.

BE AWARE.

Thank you. You can make your own private room or you can just private chat with the user you're dealing with.
