Sales site : <http://sharecashscript.com/order/>

Sir™ - May 21, 2015, 7:56 am

How is it even possible to have a network and have 100% of profit if the publishers need payments too?

doesn't make sense.

Yeah you need to made a payment to publisher. but you get a profit more then your earning now from CPA or PPD

Example :

If your earning now \$1000 a month with CPA or PPD. then you will earn with script about \$2000 a month + publisher earning cannot be calculated in example also, because it depend upon how much publisher you get registered.
