This thread desgin looks like a legit porn ad.

rollerxray7 - May 21, 2015, 12:47 pm

I recieved a vouch copy of this.

At first glance it is a big guide full of detail. Over a gig at that! I'm going to call the OP Owen. Owen responds quickly on skype. Helps quickly and was quick to offer tutorials in setting up. There is a lot of content. I can't give a serious rating on the grammar, as i shall be reading through this. However, i will leave another update after i have fully gone trough all and tested all. :)

I would advise you giving the vouch copies to trusted users instead of l33ts with 20+ rep.

Here is my review of Ultimate Adult Site Creation and Monetization Blueprint 5.0. When you get the download link, the first thing you notice is the file size, its 680MB. This makes me excited to see what is inside.

So when you open up the zip file you are greeted with pdf files and videos. These videos lasts everything from 12 minutes to 30 minutes. They are very detailed. The only thing I do not like about the videos is that it does not have voice commentary. It would defiantly improve the quality if it did. However, the videos are all HD so it is clear and easy to read and see what is going on.

You might be wondering if any investments is needed, as for investments all you need is a domain and webhosting. When you got that the guides will show you everything you need to do to get started with you adult site.

Further, into the guide it will show you how you can monetize, how to download videos. How you will be gaining both ad revenue and vip revenue. This is a goldmine. It also shows you how you setup the site to look good there is a whole 38 minute video showing how you can make your site look good and it even shows you some photoshop tutorials to make the assets to your site.

This guide is extremely detailed and I have never seen anything alike before. If you are looking to earn money and get started quickly with a low investment this is the ebook for you. You could even gain more if you hire some people to get good videos for the site. This is a extremely detailed and well made guide.

I will try these methods later and post back with results. This review is not done yet but that doesn't mean you shouldn't buy the method because you should. I defiantly recommend the method.

This is a guide line or blueprint for creating an adult website for earning??

Does it mean, something like copy and paste the content to a website?

Thank you.
