Thread: [DayZ mod gear and service shop...ONLY 1 ON HF!](#)

AvengingShadows - May 21, 2015, 12:37 pm

I'm proud to announce the ONLY DayZ Mod gear and service shop on HF...and on of the only on the whole internet! So you're asking yourself...how do I have the only one? And what do I offer? Well I have a private always undetected hack that no one else has. The people that have access to this hack can be counted on one hand. Which means this isn't one of those "I offer my service until the hack gets banned...and then when another comes out 2 weeks later". So...what do I offer?

Mods I can work on: Vanilla, Epoch, Overpoch, Overwatch, ANY MOD you know of

THINGS I CAN DO: Gear/vehicle delivery (including briefs), assassinations, base demolition, escort, safe/lockbox cracking, and nearly whatever else you can think of.

THINGS I CANNOT DO: Spawn vehicles, backpacks*, rocket launchers, unlock vehicles, create keys, and deliver any gear not supported on your server.

If it has a "*" next to it then there are exceptions, because all servers are different. With that said I can buy (if your mod supports it) or find (vanilla or similar mod/server) a vehicle, backpack, rocket launchers, etc. and deliver it to you.

Pricing: anything that will take me 30min. or less will cost \$5. Anything longer than 30min. will be negotiated with the buyer before purchase.

How do I purchase this? You can PM here on HF or skype me at AvengingShadowsOps. We will then proceed to setup server, date, time, and location for the delivery or service; while understanding I am not God and can't be everywhere at once. Once that is done payment must be received before the delivery or service is done. HOWEVER, if you are an Uber I will do the service before payment...keeping in mind that if I don't get paid...you can kiss your base or anything else you have in the server goodbye.

1 vouch copy will be given

Like I said before I am very excited about being one of the only ones offering this shop on the whole web...and THE ONLY ON HF! If you have any questions feel free to skype or PM me. Thanks everyone and have a wonderful and blessed day.

Skype: AvengingShadowsOps

DO NOT PM ME ASKING WHAT HACK I USE OR IF I WILL SELL IT...IT'S A PRIVATE HACK AND THAT'S ALL THAT MATTERS
