Hey guys, I am about to complete 2 years on this forum.  
For those of you who don't know me yet, or have forgotten me,  
I originally joined under the username "TheNoobGuy" on 25th of May 2013.

Joined this site coz of an issue with my ex-gf, was desperate to find out what she was upto in her life,  
coz she wouldnt tell me. With the help of many Helpful users on this forum, I learnt how to RAT.  
RATted her PC, found out she was dating another guy was treating her like shit. And later when I confronted her about it,  
she came clean, and told me everything, thereafter, we have been real good friends.

Long story short, HF saved my ex from being humiliated further by that fucking moron.  
It gave me peace of mind knowing everything is alright. We still talk almost all day,  
though we arent in a "Relationship" anymore. But I do Care for her.

Next in line, I learned how to earn money, After going through many ebooks, buying useless junk,  
I came across Sonex's ebook. About selling on ebay. Although I didnt exactly follow everything line by line,  
I twisted it to make some money.

Then I tried CPA, but youtube became a pain in the ass, wont let me promote my offers. :(

Then finally, I tried e-whoring, in Nov 2014. After asking many people for Help, A guy named "Trippy" helped me out with these exact words  
"Go on flirt.luckypuppygames site and post status 'F/19 US looking for older more mature men'."

Well, that's it. In the next 20 days, I made 1400\$. Bought myself L33t, applied for uber,  
was accepted, upgraded to uber without wasting any time.

But gave up on ewhoring coz it was taking a toll on me.

Then I started it again on 12th March, and by the time I stopped mid April, I had made around 4500+\$ ewhoring.

In the process of helping other members learn the process of ewhoring,  
made some good friends, like KIK, Joker etc.

I have stopped going on FB, and started giving all my time to HF. This is where life is.  
I wish there were a few more helpful users who could help Noobs, amateur hackers without being such hard-asses.

I feel new and non-upgraded members are Treated unfairly at times by some members.  
Happened with me as well, on the day I joined.

I hope some day I will become a L33T H4x0r  
coz of some Out-of-the-world kinda  
Hacking Tutorial by one of the L33T H4x0rs of HF! ?

Until then, I will keep searching for new materials,  
keep reading and educating myself.

It is an Honor to be a Part of such a Nice Community.

Love you All! ?

I don't care about your concerns "big brother" if I found out someone was essentially stalking me for "my own good" I would never talk to them again, and rightfully so. You're a lowlife for that shit. Does she even know that you did that?

Congratulations with two years and making that much money. I wish I could have said the same about the money part.

I soon have my six years at Hackforums and I'm digging it.

There is a lot of stuff I have been learning here at HF everything from RAT's to stuff that was allowed here back in '09.

I have never gotten any profit from HF compared to you.

The main reason people dont make money here is because they lack motivation. When i taught a friend of mine how to ewhore, coz he was broke af, and was gonna have a baby soon, he didnt believe it would work. In fact he laughed at me, when i told him I have made 1400\$ last year using this method.

He didnt make even a penny for 2 weeks, lack of motivation, i called him up and said, aim for the first 20\$. He tried harder, got 30\$ from a guy, within 2 months, he made over 3000\$ :)
