Thread: [What is this texture/pattern?](#)

Santeria - May 23, 2015, 4:26 am

Hey guys.

I really like this guys' work:

<http://i3.minus.com/i6e48ICRhPP8.jpg>

<http://i1.minus.com/ib2BWMCKMbVYAM.jpg>

But I'm wondering what kind of texture/pattern or whatever he used in the background of first image? (Those stars)

Does anybody know? Thanks.

(May 23, 2015 06:25 AM)Phoenix Designs Wrote: [\[CITE\]](#) I know what stock that is however, it's better if you create your own style instead of trying to copy his..

I won't copy, I just want to know what is it.

just try searching for nebule wallpapers

Scklyic - May 23, 2015, 8:22 am

Are you looking for that specific image? Because to me it just looks like a galaxy texture he mirrored, then he overlayed it with some metal scratches and added scan lines ontop of it all.

prada ? - May 24, 2015, 2:23 pm

You can achieve that by literally searching for a galaxy or stars

MegadethGFX - May 24, 2015, 10:21 pm

I agree with Scklyic, I think he put a starfield layer on top of a metal grunge texture and set the starfield layer to overlay on the layer settings. The last thing he did was use a color correction that had scan lines in it.
