Thread: [Section/Group Feedback + One Picture Response with Kittens to Staff and Groups.](#)

**b?xxy** - May 23, 2015, 6:15 pm

I've already done a few feedback threads, some comical and some serious.

You can see those here:

[HF in real life || HackForums Personal Feedback Thread. |Sections+Groups+Omni&F8|](#)

[10 Months || 1193 Reps || 10,000 Posts || 2 Girls || 1 ... Well you get the point...](#)

Anyways, in this feedback I am hoping to cover quite a bit more than I did in the other ones, and really get into detail of things I see here.

I'm going to be starting off the feedback thread with sections that I am actively posting in.

## Section Feedback

### [E-Whoring](#)

Okay, the E-Whoring community has progressively gotten better during my time here. Before I really got into the E-Whoring Section, it wasn't nearly as active as it is now. Also, there are tons of more people helping out making guides, picture packs, giveaways, streaming, it's really a good thing to see.

A problem that never seems to go away is when people post their Marketplace Discussion Threads in the E-Whoring Section.

Also, too many people are posting threads that discuss PayPal Fraud.(Having a fake PayPal, etc.) Threads that pertain to questions about PayPal belong in the [Marketplace Discussions](#) Section.

Something that I have been seeing more than I should, is when people make pointless posts when people are actually looking for help. This is not a once in a while thing, I see this constantly on threads, and it really bothers me.

I see things like: "Try reading a guide or something." (Doesn't link a guide)

"Read boxxy's guide" (Doesn't link the guide)

"Use the search option"Pointless post. If you're not going to help them out, don't post. It's quite annoying.

I've seen a ton of people getting upset with the E-Whoring Section, saying it shouldn't be here on

Hack Forums because it's simply disgusting, and many other reasons. I will cover those reasons below, in my honest opinion."E-Whoring is disgusting, and gross"Okay, that's a valid opinion. E-Whoring is a really dirty job, but if you want to talk about morality on a Hacking Forum, you're in the wrong place. Most of the time, when I am E-Whoring, I am dealing with Pedophiles. Yes, pedophiles, people who prey on children for their sexual desires. Yet, it might not be morally right to be doing that, neither is being a pedophile, but I'm not saying it's right at all.

"E-Whoring is scamming/stealing, and therefore it's wrong."Okay, this is one of the most common reasons to why people say it shouldn't be on Hack Forums. First of all, E-Whoring is not scamming. You can easily scam when you're E-Whoring, but you can easily scam in the Marketplace as well but we still do have a Marketplace. Also, most E-Whores give them what they're asking for by selling picture packs on AutoBuy websites, etc so it's hardly stealing.

"E-Whoring is illegal, why is it here?"So, E-Whoring in itself isn't illegal. If it was illegal, Omniscient wouldn't allow it on the forum.

The illegal parts of E-Whoring include blackmailing, financial fraud, which is clearly not allowed in the rules.

There's more to E-Whoring than blackmailing. There's nothing wrong with selling pictures, unless they're under 18 which is obviously wrong.

Suggestions for the E-Whoring SectionI personally think that image tags should be re-allowed in the E-Whoring Section. Most people know the rules when linking pictures that they are not allowed to contain pornographic material.

I am in the E-Whoring Section constantly, and when people giveaway picture packs the links to pictures are mostly ALWAYS non-nude.

It would be really helpful for people who make guides, would make it a lot cleaner and more efficient.

### [The Lounge](#)

There's not really much to say about the Lounge.

A few things I have noticed:The amount of trolling here has done nothing but gone up.

Most of the threads are just random questions, or would you do this kind of threads.

### [Appraisals and Pricing](#)

This section has its ups and downs, but overall is a decent section.

For the most part, people here know what they're talking about.(Referring to the active appraisers.)

Common rules broken:People posting offers on the thread as if it were a sales thread.

### Groups

[img]http://x.hackforums.net/images/modern\_pl/groupimages/english/echo2.jpg[/img]

EchoThis group was originally supposed to be a stress testing group, but was changed to a lounge group. Pretty okay community though.

[img]http://x.hackforums.net/images/modern\_pl/groupimages/english/instinct.gif[/img]

InstinctGlad Vinnie brought this back from Nightfall.

[img]http://x.hackforums.net/images/modern\_pl/groupimages/english/animefan.png[/img]

AnimeFanI hate Anime, but I'm in this group. I even told them all I hate Anime as well, but they still tried to help me out in finding something that I liked.

They're a really good group of people, and I hate seeing other people bash on them for having their own group, grow up.

[img]http://x.hackforums.net/images/modern\_pl/groupimages/english/void3.png[/img]

L'appel du VideVery mature discussion group for the most part minus a little bit of trolling.

[img]http://x.hackforums.net/images/modern\_pl/groupimages/english/pirates.png[/img]

PiratesNot really a big fan of the Userbar, but it's the most unique group there is based on the idea. We'll see what becomes of this group.

### Staff

[Omniscient](#)You've been working your ass off on this site lately, kudos.

People seem to be afraid to talk to you, which is a good thing because you get a lot less people wasting your time.We all know you're cute and cuddly irl

Also, you've banned me twice, and warned me twice I think. cough 38,000 username changes cough

I don't think we've ever really had an actual conversation to be honest.

[Skorp](#)I like how you're really active on the forum, and the fact that you do your job really well. More PM's to come soon.

Lame.

Thanks.

I didn't feel like doing shoutouts since this was more of a feedback thread than a look at my milestone/friends thread.

Omniscient is a nice admin but he isn't the definition of law. Last time I checked e-whoring scores pretty well into the Identity Theft category.

This is something I've been wondering for years. Why is eWhore section was re-added and the SE'ing one removed. eWhoring is purely Social Engineering haha. If someone can clarify this i would love it.
