Thread: [\[FREE\] >> HideMyAss Proxy Scraper / Checker - Get Proxy Lists in SECONDS <<](#)

LinusTechTips - May 23, 2015, 8:29 pm

Hey,

I am sharing a proxy scraper and checker i have had for a while now.
It generates proxies lists with around 200-500 proxies. (Format: 0.0.0.0:80)
It scrapes proxies from HideMyAss and then checks them. You can also check other proxy lists. It is pretty fast and works quite well.

If you have any issues, don't hesitate contacting me :)

NOTE: This is not my software, all credits go to the original programmer of this proxy scraper.

I've been using it for months and never ran into any issues... Don't know why it's showing up as malicious.

Unfortunately, man you just gravedug a thread. Hopefully, the neg train won't hit you too hard. Hopefully.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
