Thread: [\[Official\] Echo - Teamspeak Server \[Open to All\]](#)

Bonfire - May 23, 2015, 9:42 pm

Skype VOIP sucks and TeamSpeak rocks, so we've decided to create a TeamSpeak server sponsored by the group. The server is currently not protected by a password, and free to be used by anyone.

If you have any issues regarding the server, post 'em here or PM me. Thanks, and enjoy.

TeamSpeak IP: ts3.powerstresser.com

Tyler is pissed because I called out his autistic friends for flooding a groupchat with 18,000 messages. Yank your crank elsewhere, autism. Thanks.
