Selling a 3.3.5a Goldgenerator. Works on Dalaran-WoW, True WoW, Heroes of WoW and some others. If you need a specific server send me realm list and level 1 acc in skype.

Price is 100€ - you can easily make it back when selling gold by your own.

Looking for someone who can vouch for me in this thread that my offer is legit - will screenshare everything in skype.

I am willing to vouch for you, or take a vouch copy to prove the authenticity.
