KRONUS' FEEDBACK THREAD

It all started in October 2013 when I was looking for some tools I could have "dedos" with, so one of my friends referred me here. I guess many of you got to know about this forum this way. I started to like the community, but I was kind of a noob because I was only posting in giveaway threads... some time later, I decided to be kinda active and spend more time on HackForums. I was mainly into graphics and coding - I've met tons of good people and now I'm friends with them. Then I wanted to start some business here (heard that HF is a goldmine), so I purchased l33t to have a yellow username (lol). I ended up upgrading to ub3r, not to get "trust" or because of my "e-dick", but to contribute a little bit.

Now I spend about 5 hours a day on HF (it's very addictive) and try to earn some more bucks, HF has one of the best Marketplaces on the internet I can say.

STAFF

Omniscient

I've got 1 or 2 discussions with you, but I mainly PM you just because I want to purchase a sticky. However, you seem like a chill, but hard-working guy.

Factor8

I've had a chance to know him a lil bit better as he's in Specialists. Sometimes you're probably sick of my PMs, sorry :P

Skorp

Out of the staff, I like Skorp at most. I don't really know why, but he is very sympathetic to me.

Viral Dragon

Do not know much about him, I've seen his photo once tho.

Xch4ng3

PMed him a few times, nothing else to say tho.

Paradoxum

Don't know him much, never talked to.

RDCA

Don't know him much, never talked to.

GROUPS

Vinnie used to be fine... till he started to scam.

I like this group a lot. It does have potential.

A great group to be in. Awesome community and everything :3

I like that shadow on their usernames.

No comment.

Being rebranded, hope TommyD makes it HQ.

Do not know much yet, but zSerty is a cool guy, I hope it will go the right direction.

Not a big fan of Anime tho...

This group really has a potential, however, I don't see them much :/

Oh, they have a new userbar... not bad.

Another group I really like, shame I didn't get in yet.

Don't know much about them tho...

Change is coming? :O

SHOUTOUTS

Funny, but unreliable... still hasn't given me my free blowy.

[#RockY](#)

We've got the same hobbies and help each other. :)

[FRANKIE](#)

Thanks to this guy, money stopped to be a problem for me. He let me win his contest and told me some secret money-making methods. Nowadays we are friends.

[«Dev» Vyndar](#)

My very good business partner and friend. Had a couple of video calls. Taught him how to perform autofellatio.

[Suspect](#)

My nigga. We both know some shit about SST, we like each other. #nohomo
