Because we have a variety of users using it try running the command twice for it to register fully ;)

After using this bot for a few hours now and trying out multiple of the wide variety of commands it has, I can say that this is definitely a one of a kind bot and I haven't seen anything that lives up to what it can do. Tonnes of work has been put into this and it is definitely worth the price that is being asked.

Private666 - May 28, 2015, 5:21 pm

Much appreciation and thanks for the feedback.

Private666 - June 2, 2015, 12:33 am
