Thread: [Omnicoon Miner](#) [\[Edit\]](#) [|](#) [New issue](#)

**Snip3r\_bow** - May 28, 2015, 4:51 am

Hi there,

I followed this thread: [Tutorial](#)

I have setup my account on BlueDoctor's [Pool](#)

I have downloaded CUDAMiner and installed it, I did create my miner.bat file to start mining, but when I run it I get this 'error':

[Error Image](#)

What do you think is the problem?

Thanks in adncanced ;)

[EDIT]

I get the same error even if I try to mine in SOLO mode, any ideas?

The pool seems down, at least the website isn't loading for me.

**Snip3r\_bow** - May 28, 2015, 5:13 am

Oh okay, thanks for sharing that! :)

Do you know any more good pools?

That one is probably the best one right now. Is it working now?

The pool is down and has been so for a while. I aim to fix it in the coming week with my semester project out of the way.

I'd suggest going to Fluffy's pool for the time being, if you haven't already.

Yeah thanks about that, I've figured that out, and yes I'm already mining on that Fluffy pool, quite good actually, thanks to everyone again!
