Dean Winchester? - May 28, 2015, 2:28 pm

Go to <http://agar.io> and join Europe.

Then you open your browser console (in order to play with me and others)

For chrome you can press the settings thingy in the upper right corner and then More Tools (or something), and then Javascript console

Idk about Firefox, someone post below.

disregard the spoiler, not doing this anymore today

Spoiler ([Click to View](#))

Then paste this code:

Code connect("ws://***.***.**.***")Set your username as Name@HF

Mine will be Dean@HF or DeanWinchester idk
