Thread: [\[EVERYONE\] Custom BTC Address \[Prefix of the address!\]](#)

CentralIntelligenceAgency - May 29, 2015, 2:13 am

Hi guys, I'll make you a custom Bitcoin address (Address with a custom prefix).

That means. If your name is Michael, your address will look like: 1MICHAEL84fjsflodsk49ijegs , instead of 1dsfm894209j10j09gj4009gj5

The address is made offline and by me. There are no third parties between.

I will give you address and your private key. I can also help you with setting the wallet up.

NOTE: I can do up to 6 letters prefix. Anything longer than that, would take to long for me to make. ?

My Address: 1CiA13hRvw7M5HwBNQ4hc2dshc2QNuANky

NOTE: If you don't trust me (regarding the private key), than don't use it. I can only give you my word, nothing more.

All the thanks goes to user [Canary](#). Thank you.

Could you make one with 'Batman' somewhere in between?:)

Faithfull - May 29, 2015, 6:11 am

I would like one with Faithful somewhere :) cheers in advanced

Omni said this is not allowed.

Comedic - May 29, 2015, 6:42 am

Pretty neat. I'll check this on out later.

Hum.. I don't know.. Can someone ask Omni about it please?

I don't want to get banned for doing this lol ^^

Poutine - May 29, 2015, 10:06 am

Create me an adress with Poutine.

I'll put my thousands in this wallet.

I trust you with my fortune

Just pm him and ask.

If you are too scared, I can.

Don't offer this type of service. You might as well just say you'll be happy to create members passwords for them too.
