Thread: [\[FREE\] Flat Thread Design \[PSD\] \[Direct Link\]](#)

Inkyzt - May 30, 2015, 11:38 am

Hi everyone!

I was bored so I created a thread design. This is my first time! ?

Not that good?

Go ahead, make something better and make it free.

Lmao, it's not that good tbh. Meaning something is free, has not to make it bad.

LMFAO, I'd like to see you make a better one!

I personally like it a lot! :) Maybe the user role thingys can get the text over the logo like this:

LOGO

USER1

role

You should never be mad when he's doing it for free.

It's actually not bad!

The only thing I don't like is the black text on the dark-gray background, and that you can change in 2 seconds since it's a PSD.

Great job man. Thanks for releasing this!

Personally, I think you nailed it man. Only thing I'd change is the title (mess around with it a bit) and definitely the skype "logo" at the bottom.

It looks pretty good. The font selection is pretty decent. Well played, sir.

First of all, don't use drop shadow if you're going for flat style.

Second, don't use dark text on a dark background. Very hard to read.

Other than that it's decent for a beginner

Thanks for the criticism. I appreciate it!
