Thread: [Battlefield hardline or battlefield 4?](#)

GewooE - May 31, 2015, 1:37 am

Hello,

I am thinking about buying my first battlefield game but now i'm doubting
Between hardline or battlefield 4. Wich one do you prefer and why?

Edit: bought bf4 :)

BF4 has better/nicer guns, BFH has nicer modes/gameplay tbh. Right now, there aren't many maps or weapons in BFH and as a premium player I already unlocked most of the guns on the first days, so there isn't really much to do afterwards than level and wait for new maps and weapons to roll in.

I'd get Battlefield Hardline if I were your OP - flows much nicer and the addition of more vehicle orientation is nice too.

Are you getting them on pc or console? ps4 just had some good ass deals coulda got hardline for 50% off.

If you are getting it on PC don't even think about getting Hardline, it's dying slowly.
Just check the stats on how many players are online on each game :

- Battlefield Hardline - <http://bfhstats.com/>
- Battlefield 4 - <http://bf4stats.com/>

BF4 > BFH. Bf4 will have a longer life than BFH, I see BFH dying within 1 year and BF4 doing

perfectly fine.

Battlefield 4, Don't play it much now, but back in the day I see it as being a lot better than Hardline. Also from what I've seen it seems Battlefield 4 has a bigger community. Although if you want to play on a more updated next gen game that's dying go with Hardline. To add a note on this post I would also look at the player count like it was suggested.

Unpopular opinion here, but I prefer BF Hardline. It's unlike the other BF games, and I personally like the change.

I liked it a lot as well but the game's really dying on PC and I don't like playing dead games :(

Battlefield 4 would be better .

Cyden - May 31, 2015, 5:56 pm

Since so many people play Battlefield 4 I'd go with that! I think EA made visceral games to waste time on Battlefield Hardline instead of focusing on Dead Space 4.

SLY - June 1, 2015, 12:20 pm

Battlefield 4 is probably dead by now on PC so I would suggest go for the latest Battlefield.

Dezaray - June 1, 2015, 9:21 pm

I think BF4, Hardline is just steering too far away from the roots of Battlefield :/ I mean cops and robbers, it's like... really. Okay lol.

Not really, Hardline is dead lol

Battlefield 4 by far. It's a much more enjoyable experience overall. Better guns, game modes, etc.

Nobility - June 2, 2015, 4:11 pm

Battlefield 4, Hardline came out to be like a Call of Duty mix. If you're seeking for the hardcore tacky feel of Battlefield, BF4 won't do you wrong.

SweetNSour - October 25, 2016, 11:03 am

Battlefield 4 is way better than Hardline.

Hoxis - November 4, 2016, 3:27 pm

Hardline is so dead, most of the servers are empty.

BF4 still has a lot of active players.

I recommend you go BF1 though, it's awesome.
