Nice drawing! I am a fan of the comic book style, it makes it look really smooth

Jwan - June 11, 2015, 10:34 am

Glad you like the style man ?

The eye spacing is weird to me. Other than that, great job!

The eyes look a bit weird. Not sure if you were going for a flat look but the colours don't really stand out for me. It's alright, could be better in my opinion.

I was going for a comic style look, do you have any suggestions on which colours i could've picked?

redraw the eyes and squash the face a little and it will be fine.

I like it, nice work bro! What program did you use? Do you use wacom or similar? What recommends for beginner?

I use [THIS](#) tablet. It's been great to me.

I really appreciate you adoring my art, as i still have a long way to go. My advice, stay dedicated and enjoy some doodling in class. When trying to draw something make sure you draw a shape, not a figure.

Practice and you'll get better. Utilize and accept criticism and use it to improve. If you need more help feel free to PM me.
