Thread: [Sales Tag Change](#)

Omniscient - June 1, 2015, 2:58 pm

Sales Tags are now \$10 OMC for 15 days.

I've also lifted the Marketplace requirement. So you can now buy these for any thread that's yours in any section.

Most of the tags of course are meant for Marketplace but I might add some general ones too. I've had requests for this change in order for those with paid stickies to add Sale Tags. Now you can.

Old price was \$5 OMC for 7 days. New price is \$10 OMC for 15 days. We normally have 15-20 tags at any given point so that's just fine and the site isn't flooded with them as some believed would happen. However I'd be happier to see about 25-30 of these being used at any given time. Hopefully the changes will work toward that goal.

Any problems please PM me.

Thank you.

Sounds good, I'd prefer to purchase for longer periods of time. Also, a huge 1 days savings I'm not going to complain about! ?

Awesome! I just purchased one last night, but I think this change is nice.

Thanks Omni!

Those with any existing tags gets a full 15 days. Just how the task to remove them is going to work. Bonus.

That's awesome. Is there some sort of discount if we are looking to purchase in bulk? \$8 each if we buy 3+ at the same time?

This leads me to think, will colour ever be allowed in thread titles for a week, if we pay?

I like this change, thanks Omni.

Nice change, will save me a lot of time spent exchanging every week.

Has no effect on me however, seems like a nice implement for those in the marketplace. So you really haven't experienced any flooding of such tags at all Omni?

Damn. I bought \$5 of OMC overnight and now I just got back from work to see the price went up. That's just my luck lol.

You mean one like the paid stickies page? There isn't. It has been suggested though.

Not bad, although I have no intentions of buying any tags, thanks for the update.

I missed out here, I've been delaying purchasing a sales tag lol.

nice! very cool update. do you think there will ever be options to purchase for longer periods of time in the future?

Cameron - June 1, 2015, 11:11 pm

Awesome. :)

I'd been purchasing myself tags basically every week since the release of them. I'm glad you extended their length of time.

Is there any chance we could buy tags for like 7 days? Since I'm going on vacation in 10 days, so I don't really need 15 days tags.

It's currently not an option.

Glad to see my assumption was wrong (that tags would overflow the marketplace and become a necessity to compete).

If any users who currently pay for one sees this, I'd be curious to know if you've recognised a noticeable spike in sales etc. since purchasing one?
