Vouch!

I used this product and it is very good for interacting with others on Omegle.

The function I love this most is where it can wait for the person to respond before typing for a realistic vibe. :P

Thanks for the vouch man i been running it 24/7 getting about 700 hits a day on my website from using it.

**Bl?ckhat** - June 4, 2015, 4:10 pm

I have 1780 chats right now and have yet to be prompted with a captcha, or any problem.

Perfect for what im getting traffic for, and I see huge ewhore potential.

**tldr** - June 4, 2015, 4:16 pm

why would people buy if its out there for free?

<https://hackforums.net/showthread.php?tid=3819873>

**BotMarket** - June 4, 2015, 4:18 pm

Because mine is more stable and bypasses the captcha. I have tried the free one and it always crashes this one can run 24/7 without any issues.

Mine also allows you to only talk with people who have the same interests

Plus if you read his sales thread everyone says it always crashes, and it requires you to have a DBC account.
