Prada and Abide make some pretty awesome userbars.

What group is this for?

Friendly HF User - June 3, 2015, 10:55 am

For a different website homie.

What do you want the userbar to look like? I prefer to do work in the thread.

Never made a userbar before but I should be able to depending on what you're looking for.

I'm on this forum this as the upgraded userbar and I want something similar to it.

Red & Black colors. Have it say "Legacy"

I have a few people doing this, best one gets the \$\$\$. Put a watermark on it.
