Oh, you're issuing the God of Destruction a challenge on his own series, eh? So be it. Everybody, come at me with everything you've got. Whatever questions you have, I'll take them head on. I may know the series better than anyone else on HF. Ask any question you'd like.

I own all the Manga volumes, every season of Kai so far, all the remastered seasons, and the Dragon Box. COME AT ME.

First opponent?

In the Anime, Buutenks kicks Tien in the back. Other than that, in the manga, he didn't contribute much other than giving Goku Ki for the Genki-Dama.

How much time do you think I have, mortal? Ask me another question that upsets me and I'll destroy the Earth.

Not even the other two Super Saiyan Gods are capable of challenging me. There are a total of 187 fights from the beginning of Dragonball (starting with Goku and the Fish) all the way to the end of DBZ (Goku vs Uub). There are a total of 192 fights in total if you include Battle of Gods and Fukkatsu no F.

why saiyan's hair turns yellow , when they go super-saiyan's ? explain this . I think there is no explanation given by akira toriyama-sensei .

There is no actual reason explained, although the reason behind Toriyama changing the coloring was because the inker of his manga was getting tired of constantly inking Saiyan's hair (Goku, Vegeta, etc) so he made the Super Saiyan hair "uncolored" in the manga outside of colored editions.
