The title basically says it all. I need a place where I can purchase wholesale genuine xbox one controllers at a reasonable price. I'm looking to purchase that at around \$20-\$30 a piece.

Trust me dude, this is an example of a pristine chinese translation...

I have seen some hilarious item names like for this item:

http://www.alibaba.com/product-detail/Single-mothers-day-gift-set-wholesale_60141033298.html

Single mothers day gift set wholesale cheap fashion different types plush teddy bear toy gift valentine 's day bouquet

Very repetitive and misplaced words ?
