Thread: [How to : Youtube 301 Method \[0\\$ investment\]](#)

Eagle™ - June 5, 2015, 6:57 pm

Why you want to use it :

- Great for Starters
- You will rank on the first page most of the times
- It works for a lot of niches, to see if it works, search your keyword on youtube, if you see 301 videos on the first page, it works.
- You can earn a lot if you work hard. (I made ~500\$ out of this)
- You can use your free income to pay for seo, views, likes, etc.

Why you wouldn't want to use it :

- You will get flagged very fast under certain niches
- You need to work 10-20 mins to upload 25-30 vids if you hit up multiple niches
- You will get lucky sometimes, but not all the time.
- You could earn 1\$ one day, like you can earn 15\$ the next day

My recommendations :

- Upload 8-10 videos for 1 keyword
- Each video should be different or not
- Have a list of new account ready
- Upload after video deletion or after 6-12 hours.
- Only target 1 keyword in the tags section.
- Have a proper description with no tags spam in the description, this doesn't work. A 300-350 word text is the best.

How to :

- 1 : Upload your videos under the UNLISTED status
- 2 : Boost all of your videos using the 301 tool further down.
- 3 : Change your videos status to "Public"
- 4 : Have fun

Tools Needed :

301 Booster :

VirusScan :

This is the end of my help here, I do not have time to help a lot of people because I use CPA as an extra income, I love receiving ~500\$ each 2 weeks when I earn 440 \$ each week from a daily job.

This method is almost will get you banned/flagged on youtube no matter what, but the period of time you are on the first page, it's worth it.

This is a poor blackhat method that will get your account banned, do not use.

I used the 301 method and these were my daily earnings :

It's blackhat, you will get banned/flagged like I said on the OP, that's why you use multiple accounts when using this method, don't try to diss me when I blew you out on your "seo" video.

XuidDump - June 6, 2015, 11:03 am

Will this ban your Google Account, or only 1 Youtube channel under your account?

And congrats on max \$30 daily earnings, you'd make more at McDonalds.

So OP confirms he is spreading a poor blackhat method that will get your account banned.

Congratulations.

You are afraid of the mighty youtube ? I used 50 accounts during this period, all got banned and guess what I made money. This is a blackhat method on a blackhat forum, damn kid you afraid of breaking rules ?

TM88 - June 6, 2015, 11:13 am

How is this blackhat besides the 301 tool? And even then, its not really hurting anyone.

It's a blackhat method because we are using a tool for generating youtube views, which is against the ToS of Youtube. Also, this method is to promote blackhat niches which again is against the Youtube ToS since it's making false promises and other youtube stuff. Which makes your account(s) vulnerable to flagging by other competitors in your niche, which reports all videos other videos except theirs, after 2 video taken down for being flagged as a scam, you will get banned.

This is why this method is best if you can use multiple accounts.

Louis C.K. - June 6, 2015, 12:37 pm

I thought all you do is use ur money to buy drugs. Thanks for the tut tho, this method is good if you work hard at your niche. Vid will be removed pretty quick and yt acc will be ban pretty quick.

usmomoff - June 12, 2015, 7:36 pm

Thank for sharing, I have few questions:

1. Using tool to get views: Will our account get blocked if We pass 301+ views?
2. If we don't use tool and get real views, is it safe?
3. 301+views video is always listed on top?
