Had a slave on my dc. I know for a fact the slave didn't have an av and the crypter had powerful persistence but for some reason the slave. Possible DC just shat on itself and removed that slave?

Slavery was abolished in 1865, you can get in serious trouble if you break laws regarding this topic m8!

Spoiler [\(Click to View\)](#)DC is unstable but if he is offline that could be the issue. Also, make sure you keep your stub updated.
