Thread: [Skype Resolver - RESOLVE SKYPE FROM SKYPE DIRECTLY - NO WEBSITE](#)

FaberCastell - June 6, 2015, 3:57 pm

Hello i made this for fun, you can now add my bot on skype and use it to resolve skype to IP, no need to visit websites anymore, do it from the comfort of skype client ?

To get this:

Add on skype: skypeipresolver
[skypeipresolver](#)

- 1) If it doesn't respond, type two random messages like abc so you get bots attention
 - 2) Then type !skype username
- And it will show their IP in few seconds!

Preview;

Type !help for help

Note; it could happen that the server crashes so it won't work respond to your requests...I'll try to fix as soon as i'm online if it were to happen :-)

Rectangular - June 6, 2015, 4:01 pm

Just tried this, pretty badass. Thanks

TroiJa - June 6, 2015, 4:05 pm

This is working very good, thanks for this! ?
Will use this instead of websites :D

ZALTY - June 6, 2015, 7:06 pm

Works really well, will definatley use this instead of web!

FaberCastell - June 7, 2015, 2:27 am

Bot seemed to crash over night but it's back up and working now ;p

DuguWudi - June 7, 2015, 5:05 am

Looks very interesting indeed. Thanks.

FaberCastell - June 10, 2015, 8:02 am

Ok, bot is online if anyone else wishes to try;p

FaberCastell - June 18, 2015, 3:37 pm

Updated and online xD

Might add an option to stress the IP for free(not sure about it yet , maybe...)

gj bumping a 7 month old thread

Yoinked - February 13, 2016, 9:07 am

Wow this fucking threw me off so hard, can't stand grave diggers that post only once

Frenzied - February 13, 2016, 9:12 am

Please stop bumping this up. Skype resolving no longer works

FaberCastell - February 13, 2016, 1:03 pm

Skype resolving does work again but this service is dead so closing the thread
