Thread: [Scam attempt and DDOSD from L33T Member: drozbox](#)

TDIAL - June 8, 2015, 2:22 pm

So I had posted a hacking request a few days ago which can be seen here:

<https://hackforums.net/showthread.php?tid=4853831>

Today HF user: drozbox messages me on skype telling me he will get me the entire database from the site I wanted logins for. For \$20 BTC or \$30 PP, I tell him ill pay him \$50 if he can do it. Then he shows me a gyazo screen shot of apparently the list of user/pass he got from site. I ask him to login to one of the HQ accounts he hacked and screen share me doing it, then I would send the cash. So i would be going first.

His HF profile: <https://hackforums.net/member.php?action=profile&uid=2499060>

First I had asked him to send me pm with his skype user in it, he sends the wrong name first:

<https://gyazo.com/8f512cbf34873c15fd80ba5e5ad27a0c>

Then he sends the correct one after I say something:

<https://gyazo.com/4cfd1456ea749b302f338066cc98d0a0>

Proof the skype is his:

<https://gyazo.com/9a810d70dd0b3b65101170c8522ae259>

Skype chat in order:

<https://gyazo.com/dadee206c5d356dc4a194695e653bde1>

As you can see he ddosed me at the end which is why my sent msgs are still loading.

Scammed another user, see report here: <https://hackforums.net/showthread.php?tid=4857085>

Alpis - June 8, 2015, 4:14 pm

Hold on, you didnt even pay and you call me a scammer? What the fuck lol

TDIAL - June 8, 2015, 4:25 pm

Just wanted to warn the community about you. If you weren't scamming then you can show a staff member the entire DB of PA with logins and pass like you said you have. That should clear things up. I mean unless you don't have it now?

Alpis - June 8, 2015, 4:26 pm

Lol okay i'm sorry if you didnt like what I offered you, i'm sure theres other people here, more talented than me that does this better than me. No need to open a "scam report" because you didnt like what I offered, just find someone else, lol.

So what you're saying is, you're not too lazy to hack a database but you're lazy to login to an account? ?

Mr. Robot - June 8, 2015, 4:45 pm

Toxic is as Toxic does.

Skids will be skids.

He asked a question - you didn't give him reasonable proof of what you are doing - how hard is it to log into an account and screenshare or screen shot especially for a paid job like this. You must be autistic.

Edit the goddam source code if you are gonna scam. But don't scam HF users ffs.

Aiba - June 8, 2015, 4:45 pm

I never scammed lmao.

Whatever, nobody has to buy from me if you dont trust me, dont buy from me. It's simple.

TDIAL - June 8, 2015, 4:52 pm

I think it's pretty obvious to everyone you tried to scam here.

If HF is trying to stay HQ, a staff member will look into this and see that you don't have the DB like you say you do.

You should be banned imo.

Ha! You care about some silly number on a forums.

Also: Regarding the DDoS matter;

"drozbox is currently away.

Reason: Most likely on fluffystresser.

Away Since: Yesterday Returns on: 03-12-2020"

I'm not taking sides, I just want to stir this argument ;)

You implied I was getting karma as in I did something bad(another word for malicious).

If this guy isn't banned now I'm sure it'll only be a matter of time till he actually completes the scam on a fellow member here. Not sure why anyone would be defending him, obvious attempt to scam.

I'm pretty sure staff do not handle scam reports/community alerts.

Although I could be wrong, I havn't been on this forum in ages.

Then it is up to the community to recognize this scam attempt and do what you can individually to stop him.

I'm staff on fluffy-stresser, lolz.

I've never talked to a staff at fluffy-stresser besides Mr.Fluffy himself.

But that makes all of the more a reason to claim you DDoSed.

Anyways, this entire thing could have been avoided and we all wouldn't have to slave our lives away posting on this thread if you would have provided proof that the DB was legitimate. Either way, I do not recognize this as a scam, and you are right about not having to give the claimant proof and such.

Can't you two settle this like gentlemen without a rouse?

I have nothing against the guy, he's just idk.. weird as fuck. He didnt even pay so why even open a scam report? find someone else. Kid obviously wants attention, anyways, idk what I did wrong I really dont, I guess I apologize if it looked like i was gonna scam, lol. I cant say sorry for something that hasnt happend so idk what to say here, this thread is just screaming for attention. Dont blame it on ME that he opened a scam report when he didnt even pay, it's up to him if he wanna delete it or not, nothing will happend to me i dont think since i didnt scam or do anything.

Best regards; ?

Obvious scammer is obvious, you've all been warned of this kid.
Also he can show me proof of the DB if he wants this deleted.
Which he can't so I'll keep reviving it until a staff member posts.

OP why do you keep calling him a skid for not giving you a database lmfao, you posted in Request hacking to get the database hacked. Clearly you have no idea how to get into it yourself so dont be throwing insults and shit if you can't do what you're asking for.

Second if he sent you a picture of him logging in wtf does that do ? You never heard of inspect element? he could've changed any username to ANY username. and you still could've been shit out of luck.

As I see it this is no valid scam report. Claims are beyond LQ, just let it be lol not even that serious. You still have money and there's no proof of him hacking so drop it, He won't get banned for you bitching so lets stop wasting time.

This user scammed me and when I made threats to create a scam report he got pretty upset about it and he DDoSed me too lol. This user obviously doesn't know how to cover his tracks very well. Hold on, stop the clock. This thread is giving me cancer.

OP is right -- this was an obvious very lousy/lazy attempt at scamming, you were absolutely right to jump ship. It is a shame this moron elected to conduct a DDoS attack, but if anything that is just the icing on the cake. This guy probably bought his HF account. However, you should have used your brain and sensed his deception, and the holes in his story. His bullshit claim of having the entire database of Playerauctions in his possession was far too good to be true. You would sooner forget your mother's name before you find someone on Hackforums with that level of skill, and it certainly wouldn't be selling for a mere 30 dollars - you would be very wealthy after selling something like that.

Stay vigilant OP. As always, if it sounds too good to be true, it probably is.

Im pretty sure common sense should kick in if your going to deal with someone who has less rep and post. With that being said not taking any sides ?

GL with this getting resolved.

Thats the problem, he got rep fucked and now he is back in the positive. It looks like he is buying rep to be honest, just a bunch of kids saying stupid shit in his rep.

TDIAL - June 13, 2015, 5:23 pm

You scammed 2 other users who have evidence. This is what happens when you fuck with HF members sorry bud

TDIAL - June 15, 2015, 8:48 pm

This guy is well into the positive after his rep fuck, defending another scammed that stole \$280 PP from me

that thread can be seen here(his post page 24)

BUMP and vouch! This user also DDoSed me for a graphics service! He's an extremely low quality script kid who talks shit and uses a booter to make threats. When confronted all he had to say is that I didn't know shit about networking. Neither does he because he's a child who answers support tickets on a fucking stresser. I really want to see this user dealt with.

Wait, if you scam someone you don't get banned?

Mr Whiskey - June 21, 2015, 2:37 pm

Pretty funny thread. Just because OP didn't want to pay the guy because he refused to prove anything about what he claims it makes this entire thread LQ and irrelevant? Get the fuck outta here, the dude refuses to prove he can hack something and demands payment upfront he's most likely trying to scam.

I just want to warn the community about drozbox, still out there scamming, changing his username deceiving HF users.

Kumara - July 13, 2015, 1:29 am

I'm surprised the only action taken against him was a repfuck.

I don't know what to say about this.

I don't know what to say about this.

and im trash? wow stop insulting me i'm about to cry.

Sennheiser - July 13, 2015, 1:11 pm

This report is invalid and semi-biased

This belongs in a community warning because OP didn't actually scam you

Talu - July 13, 2015, 1:16 pm

This seems to be more of a community alert than a deal dispute. So it should be posted in Marketplace Discussions.

TDIAL - July 13, 2015, 1:28 pm

There are OPEN scam reports with PROOF on this guy. Check Opost for links. This guy deserves to be repfucked and banned. He's obvious scammer.
