Thread: [\[UPDATED DAILY\] HQ DORKS!](#)

Beeping - June 8, 2015, 10:04 pm

I will update this thread daily leaving new HQ dorks!

Here are the first few:

Code `index.php?route=extension/extension/info&extension_id=`

`/*inc*.php?all=`

`/*inc*.php?sudo=`

`/*inc*.php?login=`

`/accounts/login.php?access_granted=`

`/*all*.php?prod_detail.php?catid=` If this thread doesn't belong here please tell me instead of removing it.

IP Lookup - June 8, 2015, 10:04 pm

Nice compilation. It's good to see decent shares these days. ?

Beeping - June 8, 2015, 11:08 pm

Code `/index/path/show_users_root`

`path/shop_details.php?cid=`

`/*inc*.php?/cat_view.php?id=`

`/mall/directory.asp?id=`

ProblemSolva - June 9, 2015, 12:04 am

Nothing special these are just public d0rks.

Beeping - June 9, 2015, 12:07 am

I don't get them off public sites, probably a coincidence. I mix and make my own

Beeping - June 10, 2015, 3:13 am

Code `/*all*.asp?show_prod_details.asp?cid=`

`/*inc*.php?brochures.php?id=`

`/*all*.php?sudo/catid=55`

`/store/index/browse/categories.php?cid=`

Th3PonyWizard - June 10, 2015, 4:51 am

Code `/*inc*.php?/cat_view.php?id=`

`/*all*.asp?show_prod_details.asp?cid=`

`/*inc*.php?brochures.php?id=`

`/*all*.php?sudo/catid=55`

`/*inc*.php?all=`

`/*inc*.php?sudo=`

`/*inc*.php?login=`

`/*all*.php?prod_detail.php?catid=` Don't use wildcards. They're not working.

Beeping - June 12, 2015, 8:17 pm

Code `lire.php?rub=`

`pathofhostadmin/?page=`

`apa_phpinclude.inc.php?apa_module_basedir=`

bass booster - June 13, 2015, 4:23 pm

Kind of funny how the list above is in almost full order as

http://wiki.coders.lt/trojanai/rfi_vulnerability_scanner

WhiteDm - June 14, 2015, 8:15 pm
