Thread: [What makes a eBook make you to purchase it?](#)

ha4x0r - June 10, 2015, 4:31 pm

Deal Alert: I am about to sell my eBook here which takes roughly 30 - 45 minutes to achieve \$10,000 within 5 - 10 minutes job.

Before I want to make a official release I want you to post what gets your eyes to buy an eBook. Of course you get refunds if no success but we guarantee success as we will no longer be able to see you when you use our eBook (this happens in very rare cases!) .

I tell you this it wont be cheap! Price is not yet set but between \$3,000 and \$6,000 as it has only about 300 letters took us very long time to use google translator to find us the best words that no one can even understand.

We will only give vouch copies to staff members and they could vouch after they've tested it out.

When the user has more reputation than me, that makes me want his eBook.

Only e-books that involve armed robbery attract my attention.

Too risky, ebooks that involve transferring banks money to personal account through internet better.

This is probably better than any e-book currently being sold in the marketplace. At least it ain't saturated :D
