Thread: [L33T Upgrade Contest \[NO SIG\] WINNER: Darkcoreiscool!](#)

Phaxol - June 11, 2015, 2:00 pm

Update: The winner is Darkcoreiscool!

EDIT: THIS IS NOT A POST TO ENTER CONTEST! You must post yes, but you must include any contributions you have made to the community and why you deserve the upgrade as well.

Hello, to give back to the community I am upgrading one normal member to L33T. The only thing you must do to enter is to tell me why you deserve to be upgraded on the thread. List any contributions to the community or services etc. At the end of 1 week I will decide who gets the upgrade and message the winner, while updating the thread with the results.

Good luck to all! Upgrading 1 HQ person!

Some requirements:

- At least 300 posts
- Positive reputation

Billie Joe Armstrong - June 11, 2015, 10:10 pm

Post to enter this contest. Thanks , mate.

Goodluck to all participants.

You can check my profile, see my threads. I've got no useless hanging out threads but only the informative and HQ threads.

I've helped quite a lot of members on this community.

Here are my contributions as you said to link to all the threads. You can also see them but anyway, Get FREE likes, subs, followers, views. METHOD

This was a website of mine where people got free likes, subscribers, followers etc. It was really appreciated, and here's the link

This guy gets it ?

Beeping - June 12, 2015, 7:54 am

Hello, I'd like to apply for the upgrade as I would love to get a l33t rank but I can't afford it and it would mean a lot. I might not have the 500 posts, but I do have a positive reputation and I do my best to give away hq content daily. I'm very active on the forums, as I spend most of my time here and I mainly give not take. Getting l33t would be the best :)

Hello OP, I'd like to enter this giveaway.

I think I deserve the upgrade because I help around a bunch (on and off-site), majority of my posts being in the w&fh/beginnerh sections if I'm not mistaken.

I've hosted a cryptography+website hacking challenge, and have released one of my projects on here (more to come soon).

Why did you join hackforums?:

I joined Hackforums to expand on my knowledge and my awareness in different types of methods on Doxing and E-Whoring. Although coming to grips with Hackforums for a while now I have understood these "aims" and wishes I wanted to achieve and soulfully done them. I was aware of hackforums on a number of different occasions such as one 2 years back when I searched on Google for a Rat tutorial and I found a link coming to Hackfourms although I never really did register until the 06-11-2014. Which was saddening as I could have been here for over two years now! ?

So that is why I joined this forum! I initially thought it was just for hacking although from my time being here I realised it is something much much more than that! I realised it has a good community that is very helpful and has many different sectors such as the market place and the lounge!

What do you want to achieve here?:

In Hackforums I want to achieve various different aspects that accompany the art of hacking in general terms. Although as stated before I had been up to grips with learning about on how Rats work and on the physics behind "E-Whoring" and "Doxing". Although now I know what they are and I am working on something big. I want to improve on my coding. Now being a decent E-Whorer and also a good Doxer I want to improve something that I am very weak and fragile at which is Coding. I have never been a fan of coding since I really never known how it has worked, well that is until December 2014 where I realised and studied for a long time on Java and C++. I am now fairly OK in the art of coding now but I certainly want to improve! I also want to help out the Sony Gaming community a little by posting some of my Modded content and threads to users alike! Some have been posted below! ?

What is your favourite interest?:

My favourite interests in "normal" life or interpreted sometimes as real life is chess and tennis. I have always liked Tennis since I was small and always loved watching the matches in person. I miss those days although right now I do play for a top tennis club in the United Kingdom which is good as I love playing the game. I also like Chess because in a way it boosts my confidence just before I am about to do something important. It is very hard to explain but it calms me down and "chills" me! ?

In the computing side of things my interest is cracking and defacing. Something that I am a intermediate expert at is probably only is these two things. I am a skilled cracker and can crack practically anything you can throw at me and I love the art of SQL injections and also the defacement! In video games I love playing on my PlayStation 3 and 4. I love TPS's, FPS's and also football games such as Fifa. I play these in my spare time and or when I feel like playing! ?

I also like meddling around with my old android devices! I love on how they work and what they do to function. I have rooted my phone (Due to help with one of the members here) and I have also solved many problems regards to Hackforums which I am grateful for as now I can customize my Android to what I like and I also can change the settings to what I prefer!

I have a cute dog if that's something you're into. Some pretty HQ normal members, better then half of l33ts. Props for the contest and goodluck fellas.

Phaxol - June 17, 2015, 8:46 am

Be sure to enter as fast as you can! There is only one day remaining in this contest!

PolarBeats - June 17, 2015, 2:26 pm

i am not going to lie, when i joined HF in august of 2014 i was a LQ member. I have sense learned from my mistakes and i have worked to improve myself and give back what i can.

here are a few tutorials/ helpful threads i have made

Hey, I'm PLD272 and I'm mainly a graphics designer/ programmer/ politics enthusiast. I browse these forums to teach myself thing or two. When I'm feeling good I make free graphics for people and help out in the beginner hacking section. I would really appreciate a l33t upgrade so I can help out in other sections of the site and give reputation to those that deserve it.

Here's some of my stuff (mainly graphics):

Businesses - June 17, 2015, 11:02 pm

Hello,

My name is Businesses and I am on HF mainly to do business. It has been almost an year since I joined.

I also help people with their day to day problems or advice people according to my experiences.

I would like l33t so that I can post make threads in Premium sellers section and browse VIP area.

I believe actions speak louder than words, you can check my profile:)

Thanks.
