Value of \$100? Maybe if you upgraded the walls to at least level 8. Bought the extra two builders. Upgraded troops/spells more. Half the upgrades are still at max TH8. I can see you getting \$50 tops for this account.

If you wouldn't have rushed to TH9. Then the value would be alot better. Barb king isn't even lvl 10 lmao.

Thanks for the advise, but the account is still much more worth in value I feel ?

Mr. WAVES - June 12, 2015, 10:39 am

I don't see why this account worth 100\$..

Your troops are not even TH8 max, same for your base.
All you did there is to rush to TH9.. bad decision :/
